

433.92MHz Antenna Specification

Ver: V1.0

一、 Mechanical Size

二、 Electrical Specification

Item	Specification
Model	433.92MHz PCB Antenna
Test Frequency	433.92MHz
Horizontal Gain	433MHz:-3dBi
Vertical Gain	433.92MHz:-3.1dBi
Gain	-3 dBi
Polarization	Horizontal & Vertical
Impedance	50 Ohm
Type	PCB Antenna
Manufacturer	Yiwushizaishanjinchukou Co.,Ltd. Room 702, Qianfeng Industrial Park, No.738, Jiangdong
Address	SouthRoad, Jiangdong Street,Yiwu City, Jinhua, Zhejiang, CN(China)

三、 Description

Designed for 433.92MHz, 50(Ohm) impedance, dual polarization, suitable for remote control.

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required.
