

Model Difference declaration

Product Name: Bone Conduction Wireless Headphones

Models:

G41157, G41158, G41159, G41160,
G42151, G42152, G42153, G42154, G42155, G42156, G42157, G42158, G42159, G42160,
G43151, G43152, G43153, G43154, G43155, G43156,
G45151, G45152, G45153, G45154, G45155, G45156, G45157, G45158, G45159, G45160,
G46151, G46152, G46153, G46154, G46155, G46156, G46157, G46158

The device is a bone conduction wireless headphone designed to transmit audio through bone conduction technology.

It integrates wireless communication capability (BT5.2 technology) to connect with external devices such as mobile phones for audio streaming and control functions.

There are 38 models in this product family. All models share identical RF design, including same RF chipset, identical RF circuit design, identical PCB layout, same antenna type and antenna location, therefore, all models have identical RF characteristics and compliance performance.

The differences between the models are limited to cosmetic appearance and mechanical design, including different housing appearance, different button design or button location, enclosure material (metal or plastic) and different audio processing or performance configurations, these differences do not affect the RF circuitry, antenna design, operating frequency, or RF output power. The model numbers differ only by cosmetic or configuration variations and do not represent differences in RF design.

Series	Mode	Structure design	Material
G41	G41157, G41158	 <i>oval design</i>	Metal
	G41159, G41160	 <i>round design</i>	Metal
G42	G42151, G42152, G42153, 42154, G42155, G42156, G42157, 42158, G42159, G42160	 <i>oval design</i>	Plastic

G43	G43151, G43153, G43155	 oval design	Metal
	G43152, G43154, G43156	oval design, power switch is a small press button.	
G45	G45151, G45152, G45153, G45154, G45155, G45156, G45157, G45158, G45159, G45160	 oval design	Metal
G46	G46151, G46152, G46153, G46154, G46155, G46156, G46157, G46158	 oval design	Plastic
