TIPS AND RECOMMENDATIONS

1. Do not try to disassemble the product. Please contact Myster for help troubleshooting any issues you may be experiencing.
2. Do not use Puff Muffs in high temperatures, near heat, or near fire.
3. Only use the charging cable provided to charge the Puff Muffs.
4. Long exposure to loud volume may cause hearing damage. It's advised to adjust the volume to a proper level for use.
5. For your safety, it's not recommended to wear the headset when driving as it may result in distractions.
6. Please pay attention to the surroundings when you use the product in case of potential risks.

TROUBLESHOOTING GUIDE

Q1: My Teammate Can't Hear Me?

1. The connection options vary for different devices. Please make sure you have followed the instructions on pages 7, 8, and 9, using the correct dongle for Wireless Connection and 3.5mm Audio Cable for wired connections.
2. Make sure the microphone has been installed and turned on.
3. Make sure the Puff Muff is switched to the "ON" position on the mic arm.
4. Verify the sound settings on your connected device to ensure the headset microphone is enabled.
5. Please contact Myster support if this issue is unresolved.

Q2: How To Connect to a PS5/PS4?

1. Wired Mode: Use the 3.5mm Audio Cable to connect the headset and the PS5/PS4 controller.
2. 2.4GHz Mode
a. Turn on the PS5/PS4 Console.
b. Turn on the headset, making sure to toggle the switch to the position.
c. Insert the USB Dongle into the PS5/PS4 console. The Puff Muffs will connect automatically.

Q3: How to connect to an Xbox?

1. Ensure the Xbox console is powered on and the controller is already connected.
2. Insert the audio cable into the Xbox controller, and connect the other end to the Puff Muff Gaming Headset to use.

PS: Xbox Series is only compatible with the 3.5mm wired mode.

Q4: How to switch between Bluetooth mode and 2.4GHz mode?

The Puff Muff Gaming Headset includes a simple mode toggle switch, allowing you to easily switch between Bluetooth mode and 2.4GHz mode.

Q5: Why Does The Sound Crackle or Hiss?

Other sources of interference may be too close, such as TVs, refrigerators, power tools, and other electric devices. Please keep away from them when using the Puff Muff Gaming Headset.

FCC STATEMENT:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:
(1)This device may not cause harmful interference.
(2)This device must accept any interference received,including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTICE:

Note: This equipment has been tested and found to comply with these limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

(1)Reorient or relocate the receiving antenna.
(2)Increase the separation between the equipment and receiver.
(3)Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
(4)Consult the dealer or an experienced radio/TV technician for help.
