

APPENDIX-PHOTOGRAPHS OF EUT CONSTRUCTIONAL DETAILS**Model: 2466GN****Photo 1****Photo 2**

The image shows the back of a black zhone 2466GN mobile phone. The phone has a large, rectangular speaker grille with a grid of small holes and two larger, vertically-oriented oval openings on the left and right sides. Four circular screws are visible at the corners of the back cover. Two white labels are affixed to the phone. The top label contains the zhone logo, regulatory markings (CE, FCC, UK, etc.), a barcode, and the text "Model: 2466GN". The bottom label contains the zhone logo, "Model: 2466GN", a QR code, and technical specifications: "2.4GHz SSID: DZ5_0A88", "2.4GHz PassPhrase: dzr502099848", "5GHz SSID: DZ55G_0A88", and "5GHz PassPhrase: dzr502099848". A wooden ruler is placed horizontally below the phone, and a metal ruler is placed vertically to the left of the phone, both providing a sense of scale. The background is a solid blue surface.

A black, rectangular Zhone network device is shown against a blue background. The device features a large, perforated ventilation grille on its top surface, with the 'zhone' logo centered. The front panel includes several ports and indicators: a WPS button, a RESET button, a USB port, a PWR button, a USB port, a POTS port, and four RJ45 ports labeled GE1, GE2, GE3, and GE4. A small yellow triangle icon is visible on the right side. A wooden ruler is placed horizontally below the device and vertically to its left, providing a scale for its dimensions.
