

Z-IOT CAM

Step 1. Install the APP

Scan the QR code on your phone to download and install, then register an account and log in after installation.
(Download and install iOS system in the APP store)

Software Name: Z-IOT CAM

Power on: Press and hold the power button for 2 seconds. If the red light stays on, it is considered to be turned on.
Shutdown: Press and hold the power button for 3 seconds, and the red light will turn off to shut down.

Reset: In the power on state, press and hold the power button for 5 seconds, and the blue light will flash to a red light, then the red light will remain on.

Note: The red light in AP mode is always on, and the blue light in remote mode is always on.

Method 1 for registering an account

Method 2 for registering an account

Add ZIOT account password default 123456

Step 2. No internet connected devices

1. Connect the built-in hotspot of the machine, the hotspot starting with ZIOT, click on connect, after successful connection, return to the APP, and click on the screen to watch.

Connect ZIOT_WIFI

Click to watch the video

Step 2. Internet connected devices

1. Connect the built-in hotspot of the machine, the hotspot starting with ZIOT, click connect, and after successful connection, return to the APP, as shown in the following figure.

Connect to WIFI

Input password

Connection successful

Attention: As long as the WIFI password is correct, you can definitely connect. If you cannot connect, first, forget the router password, verify it, and then re-enter it.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
