ELECFOX

Elecfox Core V1 Wireless Gaming Mouse

Elecfox.Co

01 Introduction

① Type-C Port

② Left Mouse Button

③ Right Mouse Button

④ Scroll Wheel

⑤ Battery Indicator/Mode Light

⑥ Forward Button

⑦ Back Button

⑧ Feet

⑨ Optical Sensor

⑩ DPI Button

⑪ Mode Switch

⑫ Dongle

⑬ Cable

02 Quick Start

1. Charge / Wired Mode

2. Wireless Mode

03 DPI Settings

Press the DPI button to quickly cycle through sensitivity levels.
Each DPI level is indicated by a different LED color:

04 Polling Rate Settings

The polling rate can be adjusted through the software.

Battery Indicator

1. When battery level drops below 10%, please recharge the mouse.
2. Red light (steady): Charging
3. Green light (steady): Fully charged

06 Equipment Connection

Wired Mode: Connect the included USB cable to the mouse's Type-C port and your device's USB-A port. A steady red light indicates a successful connection.

Wireless Mode: Switch the button on the bottom of the mouse to 2.4G or BT mode. Press and hold the left, middle, and right buttons together for 3 seconds to enter pairing mode.

2.4G Mode: The indicator will flash green rapidly. Once connected, the green light will stay on for 3 seconds, then turn off.

Bluetooth Mode: The indicator will flash blue rapidly. Once connected, the blue light will stay on for 3 seconds, then turn off.

07 Customizing Keys, Macros, and RGB

To customize key functions, create macros, or adjust advanced RGB lighting effects:

Visit our official website: elecfox.co

Download the local driver, or use the web-based driver directly;
From there, you can customize key mappings, set up macros, and access advanced features.

08 FCC Caution

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
