

FCC ID: Explanation Letter regarding Changes to American Representative Information

To: Relevant Certification Authorities / U.S. Agents

Date: June 30,2026

In accordance with our preliminary business collaboration with Hunter, we have collectively applied for and obtained FCC ID certification for the following five products, designating Hunter as the authorized U.S. distributor. Hunter will be fully responsible for procurement, importation, and sales of these products in the United States.

1. 2BRYR-DRS713AM
2. 2BRYR-DR1696
3. 2BRYR-DRS1708PD
4. 2BRYR-DRS2220
5. 2BRYR-DR2230PD

Following the final business negotiations and order confirmation between both parties, the cooperation plan was adjusted. Only model 2BRYR-DRS713AM will continue to be procured, distributed, and marketed in the U.S. market by Hunter; the remaining four models—2BRYR-DR1696,2BRYR-DRS1708PD, 2BRYR-DRS2220, and 2BRYR-DR2230PD—will no longer be procured by Hunter, which will also cease involvement in their import, distribution, and compliance management in the U.S., as well as assuming any associated agency responsibilities.

In compliance with FCC regulatory requirements, and as our former U.S. distributor Hunter has terminated all cooperation and distribution responsibilities for the aforementioned four products, we hereby formally request amendments to the U.S. distribution information for the four FCC IDs: 2BRYR-DR1696,2BRYR-DRS1708PD, 2BRYR-DRS2220, and 2BRYR-DR2230PD.

Our company hereby confirms that all information stated in this letter is true, accurate, and valid, and assumes full compliance responsibility. We kindly request your assistance in completing the necessary procedures for updating the database information.

Hereby stated!
