Product Overview

Instructions for Use

When the iPhone is charging, the blue light is on; when the Qi-charging earbuds is charging, the green light is on; the red power indicator is always on after power on.

Maintenance and Cleaning

Gently clean the wireless charger with a dry, soft cloth to avoid internal short circuits. Do not use corrosive cleaners as well.

Warranty and After-Sales Service

This product comes with a 1-year warranty. If there is non-human damage during normal use, please contact our customer service, and we will provide you with service and support.

The warranty does not cover damages caused by human factors, improper use, or failure to operate in accordance with the instructions provided.

Product Safety

We want to make sure you're as safe as possible when you're using our device. Please be sure to read all instructions and warnings before you use your Fast Wireless Charger.

1. Please do not disassemble or reassemble this product.
2. Avoid use in high temperatures or damp environments.
3. Please be sure there are no metal materials (like iron sheets, finger ringers, metal protective shells, etc) on the back of your phone. In order to work properly, the charging pad must make complete contact with the back of your mobile device.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co - located for operating in conjunction with any other antenna or transmitter.
