

Product Parameter

Model:	MEDO000LIP1794F8-A
--------	--------------------

Unicorn	Rated Power:	0.7W
	Battery Capacity:	1200mAh
	Power Input:	DC 5V===500mAh
	Use Time:	5-10h
	Charging Time:	3 hours
	Texture of Material:	Silicone, plastic & LED
	Product Dimensions:	5.91 × 3.27 × 2.76 inches
	Product Weight:	0.304 lbs
Cloud Base	Rated Power:	1.2W
	Power Input:	DC 5V
	Texture of Material:	Silicone, plastic & LED
	Product Dimensions:	5.91 × 5.31 × 1.77 inches
	Product Weight:	0.414 lbs

Cautious

Do not use or store the product in high heat, humidity, or strong magnetic environments.

- Keep keys, coins, or other metal objects away from the charging area to avoid overheating or hazards.
- Stop use immediately and disconnect power if you notice overheating, odor, or smoke.
- Do not disassemble, modify, or repair the product yourself to prevent electric shock or fire.
- Use indoors only; keep away from rain and direct sunlight.
- Ensure good ventilation during use; do not cover with blankets, pillows, or other fabrics.
- Never throw the product into fire or expose it to high temperatures.
- Charging surface must be kept away from flammable materials such as carpets or bedding.
- Battery replacement must be performed by authorized personnel only.

⚠ WARNING: This product must never be disassembled under any circumstances.

MADE IN CHINA

⚠ WARNING:

Not a toy; intended for ages 3 and up. Beware of children swallowing attachments accidentally.

Q&A

"Why does the cloud light flicker when wirelessly charging my phone?"

"Why is charging slow and not reaching standard power?"

- Wireless charging specifications:

This product provides 7.5W charging for iPhones and 15W for Android phones (see previous page for compatible models).

- Power limitations:

Charging performance depends on your wall adapter's power output. Wireless charging naturally loses some energy during power transfer.

- Solution:

If you experience flickering lights or slow charging, check your wall adapter. Please use our included charging cable or a 5V/3A (or higher) cable to ensure the device gets enough power.

Let the cloud embrace the night and the unicorn bring sweet dreams.

Overview

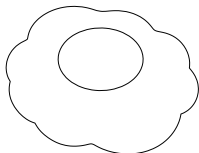

Unicorn Night Light

Front

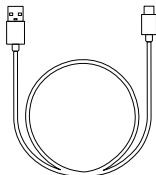

Back

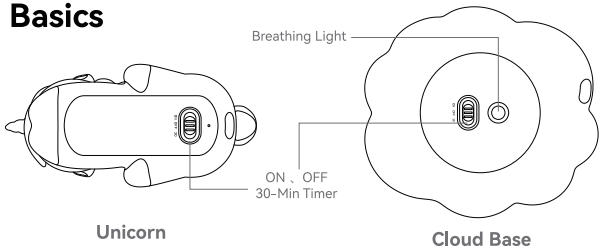

Adjusting Brightness

* The unicorn's light is tap-controlled; the cloud's light is not.
Each tap cycles through: Low → Medium → High → Color mode.

USB Type-C Charging Cable

Basics

Turning the Light On and Off

- Sliding the slider to ON will turn the light on, and OFF will turn the light off.

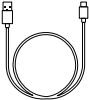

Timer Operation

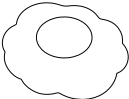

- **Setting the Timer:** Sliding the switch to the "30" position can turn the light off after 30 minutes.
- **Canceling the Timer:** Sliding the slider to ON/OFF can turn off the timer.

Breathing Light

- **Short Press:** Enter breathing mode; press again to exit.
- **Long Press:** Adjust brightness; release to lock current level.
- **Note:** Brightness cannot be adjusted in breathing mode.

Important Precautions

Do not use wired and wireless charging simultaneously on the unicorn or phone.

-
- Remove metal plates, magnetic rings, or stands before wireless charging.
 - Cases over 6 mm may block charging; use a thin case or none.
 - Avoid frequent placing or removing of the device.
 - Do not hit or press the cloud base hard.
 - Unplug when not in use for a long time.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
