4. Do not clean the product unless the equipment is powered off.

Packing List

Package Includes:

- 15 IN 1 Wireless Charging Station*1
- Power Cord (1.5M/5 FT)*1
- Braided E-mark Cable*2
- User Manual* 1

FAQ

Q: How many indicator lights are there?

A: Two indicator lights. The right one is the indicator light for mobile phone wireless charging, and the left one is the indicator light for earphone wireless charging.

Q: When the indicator light will turn green?

A: When the device is first connected to the power supply, the indicator light will turn on continuously for 3-5 seconds and then turn off.

A: When the device is charging normally, the indicator light will turn green for 5 seconds and then turn off, and the device is charging normally.

Q: When the indicator light will turn red?

A: When our wireless charging device cannot charge normally, the indicator light will turn red.

Specifications

Product Specifications:

Product Name: USB C Charging Station Model: M13

Material: Plastic

Input: AC100-240V 50/60HZ 8A MAX

Product Size: 9.6inx4.7inx5.5in

Working temperature: 0-40 degrees Celsius

Cell phone wireless charging output: 5W 7.5W 10W 15W

Watch wireless charging output: 5W

Earbuds wireless charging output: 5W

Output Voltage

USB-C1:(5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A)

USB-C2:(5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A)

USB-C3:(5V/3A 9V/3A 12V/3A 15V/3A 20V/3.25A)

USB-C4:(5V/3A 9V/3A 12V/3A 15V/3A 20V/3.25A)

USB-C5:(5V/3A 9V/3A 12V/2.5A)

USB-C6:(5V/3A 9V/3A 12V/2.5A)

USB-C7:(5V/3A 9V/3A 12V/2.5A)

USB-C8:(5V/3A 9V/3A 12V/2.5A)

USB-A1&A4:(5V/4A)

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person is no closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals in the order of a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 447498.
