

## Due Diligence Letter

For Certification Service in the USA

**Federal Communications Commission**

Equipment Authorization Division, Application Processing Branch  
7435 Oakland Mills Road  
**Columbia, MD 21048**

To whom it may concern

|                 |                     |
|-----------------|---------------------|
| FCC ID          | Model name          |
| 2BS4S-MVT89PDBW | MVT89PDBW, MVT88DBW |

Pursuant to KDB 986446 D01 Covered Equipment Guidance the evaluation of the product above shows compliance for the following reasons:

| Compliance             |                                     | Evaluation process                                                                               | Results    |
|------------------------|-------------------------------------|--------------------------------------------------------------------------------------------------|------------|
| Inherent compliance    | <input type="checkbox"/>            | The chipset(s) used is not capable of running the cybersecurity and/or anti-virus software       |            |
|                        | <input type="checkbox"/>            | The memory used does not allow the running the cybersecurity and/or anti-virus software          |            |
|                        | <input type="checkbox"/>            | The storage capacity does not allow the running the cybersecurity and/or anti-virus software     |            |
|                        | <input type="checkbox"/>            | The operating system used is not capable of running the cybersecurity and/or anti-virus software |            |
| No inherent compliance | <input checked="" type="checkbox"/> | Based on software bill of material                                                               | Compliance |
|                        | <input type="checkbox"/>            | Based on scan for running software on the device                                                 |            |
|                        | <input type="checkbox"/>            | Based on filesystem scan for cybersecurity and/or anti-virus software                            |            |

The equipment for which authorization is sought complies with the rules and fulfils the requirements as detailed in the above mentioned KDB.
