During use, when the battery power is low, the butt plug will automatically deflate to prevent it from being unable to be removed.</div><div>2. After the butt plug is inflated, if neither the deflate button on the product nor the deflate button on the remote control deflates the plug, press the forced deflate button on the product to release the air inside and ensure safe removal.</div><div>3. Deflation takes 10 seconds to complete, and other functions cannot be used. You can continue to operate the product after deflation is complete within 10 seconds.</div><div>4. Do not block the air inlet or outlet while using the product, as this will prevent inflation or deflation.</div></div><div>-6-</div></div> | <div><div>Deeplusty</div><div><b>SUGGESTED USE STEPS</b></div><div><div><div><div><div></div><div></div></div><div>1. **FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
