

The image shows a multi-page spread of a user manual for 'Deeplustly'. The pages are white with pink and grey accents. The top page features the 'Deeplustly' logo in a pink, cursive font, followed by the tagline 'ENJOY EXPLORING, LET YOUR TRUE SELF SHINE!'. Below this is a list of four numbered items: 1. BRAND STORY, 2. WARRANTY & AUTHENTICATION, 3. AFTER SALES SERVICE, and 4. HOW TO USE. The middle pages contain sections for 'WARRANTY & CERTIFICATION', 'Brand Story', and 'After-sales service'. The bottom page has a QR code and contact information. The right edge of the spread shows the spine of the manual with the 'Deeplustly' logo.

CLEANING AND STORAGE >> Cleaning To clean directly after use, pat dry with a dry, lint-free linen or towel. If the product is grease- or dirt-ridden, wipe it with a soft cloth and clean it with mild soap or a neutral detergent. >> Storage ⚠ Never immerse this product in water while charging to avoid accidents such as electric shock, short circuits, and fire. ⚠ Do not store this product in areas exposed to sunlight, high temperatures, or high humidity. This may cause discoloration, cracking, heating, or even fire.	TROUBLESHOOTING The product is not working properly After pressing the power button, did you hold it down for 2-3 seconds? Is it fully charged? Please release the power until the product stops turning on, then fully charge it. If it still doesn't work after several attempts, the battery may be damaged. The product cannot be charged. (The indicator light does not flash when charging) Is the charging cable disconnected from the charger or charging port? If your computer enters standby mode while using a USB port, the device will not charge. Please check if your computer is in standby mode. The charging port may be dusty or stained. Please wipe it with a dry cloth or cotton swab before charging. Is the device fully charged? When the device is fully charged, the indicator light will remain on.	TROUBLESHOOTING Charging will not be completed. (The indicator light still does not go out after charging for a long time.) Dust and stains may be trapped in the charging port. Wipe it with a dry cloth or cotton swab before charging. If the indicator light remains on after 180 minutes of charging, the charging contacts may be faulty.	SAFETY AND WARNINGS If you are using a medical device, undergoing treatment, or are pregnant, consult a doctor before use. Keep out of reach of children to prevent them from swallowing parts or accessories. Please use the provided USB charging cable to charge the product and connect it properly. Otherwise, it may overheat or burn. To avoid electric shock or burns, keep your hands dry when unplugging the charging cable.				FCC STATEMENT Changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
