

3896928 Telescopic Massage Wand

← Long press to turn main body vibration on/off; short press to switch frequency.
When turned on, the button light is on; short press makes it flash once.

← Long press to turn impact function on/off; short press to switch frequency.
When turned on, the button light is on.

← Long press to turn top vibration function on/off; short press to switch frequency.
When turned on, the button light is on; short press makes it flash once.

Note:

When any of the three buttons is long-pressed to turn on, the button light flashes, and the device enters standby mode, ready for Bluetooth connection to the APP.

While charging, the button light flashes; when fully charged, the light stays on.

Button light color: White.

After power-off, short-press the impact button to reset the impact motor.

- roduct Features:
8 vibration modes + 8 impact modes + APP control
- Product Color:
Product Material: Silicone, liquid silicone, ABS
Product Process: Main body: liquid silicone; top: ordinary silicone; plastic parts + electroplated gold finish (Pantone 10126 C)

FCC Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
