

Euvola - AI Emotional Companion User Manual

Model: EUV-001

1. Welcome

Welcome to Euvola, the world's first AI emotional companion. This manual will guide you through the setup, basic operation, and important safety information for your device.

2. What's in the Box

- * Euvola Device x 1
- * USB-C Power Cable x 1
- * Quick Start Guide x 1
- * *(Note: A power adapter is not included.)

3. Setup Instructions

Your Euvola device requires an internet connection to activate its full AI capabilities. Please follow the steps below:

Step 1: Connect to Power

Connect the included USB-C Power Cable to the power port on the back of the Euvola device. Please use your own standard USB-C power adapter (5V/3A recommended) to plug the other end of the cable into a power outlet. The device will power on automatically.

Step 2: Download the Mobile App

On your smartphone, search for and download the "Euvola" app from the Apple App Store or Google Play Store.

Step 3: Create Your Account

Open the "Euvola" app and follow the on-screen instructions to register a Euvola account using your email address.

Step 4: Network Configuration

In the app, select "Set up a new device."

Follow the app's guidance to connect your phone to the Euvola device via Bluetooth.

Once connected, the app will display a list of available Wi-Fi networks. Select your home Wi-Fi network and enter the password.

Step 5: Connection Complete

After submitting the Wi-Fi information, your Euvola device will automatically connect to the internet. Once connected, your digital companion will appear on the screen, ready for your first interaction.

4. Basic Operation

Starting a Conversation: Simply start talking to Euvola. It is designed for natural, voice-first interaction.

App Management: You can use the "Euvola" app on your phone to manage your account, create or switch companion avatars, and configure other advanced settings.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
