Safety instructions

ClitoShare & RealShare

Safety Instructions

Your safety is our priority. Our devices are designed for consumer use, but certain precautions must be strictly followed. Any improper use may pose risks to the user and will void the warranty.

Contraindications & Usage Restrictions

Do not use on irritated, damaged, or infected skin, or on body areas with implanted electronic devices (e.g., pacemaker).

Not recommended without prior medical advice for pregnant or breastfeeding women, minors, or people with epilepsy, heart conditions, or dermatological issues.

Usage Recommendations

Use the product only as intended by the manufacturer.

Do not lend or share the product without disinfecting it first.

Keep the product out of children's reach.

Do not use the product under the influence of drugs, alcohol, or medication that may impair judgment.

Technical risks

The product contains a rechargeable battery. Avoid exposure to heat, fire, or metallic objects while charging.

Never open, disassemble, modify, or replace the battery.

Risk of electric shock, fire, or explosion.

If you notice abnormal behavior (noise, overheating, cracks, or irregular vibrations), stop using the product immediately and contact after-sales support.

If Problems Occur

In case of skin reactions, pain, or discomfort, stop using immediately and consult a healthcare professional if needed. Never attempt to repair the product yourself. Contact only authorized professionals or the manufacturer's customer service.

Warning

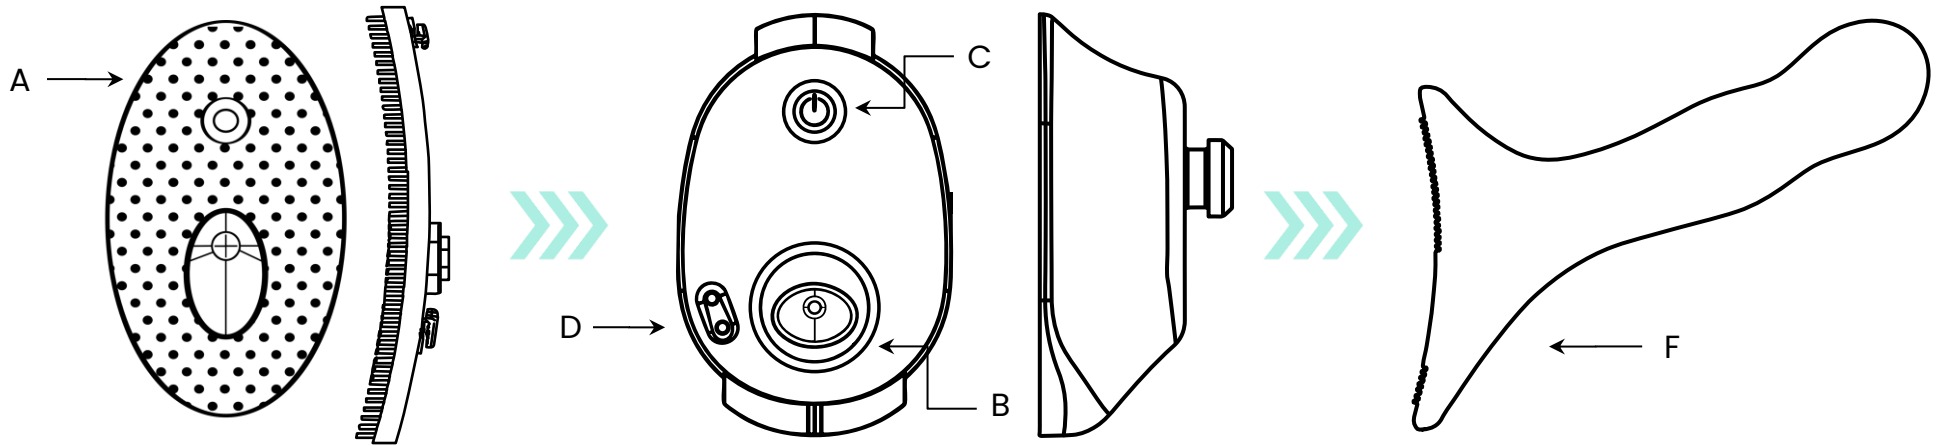

The use of our products is the sole responsibility of the user. Neither LET'S SHARE nor its distributors shall be held liable in case of misuse. Any unauthorized modification or alteration may void your right to use the device. Models may be updated without prior notice to improve performance.

Getting Started

ClitoShare & RealShare

Share Series : Overview

A. *Sharefit* Tip

B. Smart Stimulator

C. Power button ; LED indicator & intensity control

D. Magnetic charging port

F. Silicone *Love Toy*

Getting Started

We believe in respecting every body and every sensitivity.

We invite you to explore at your own pace, with kindness—whether on your own or together with a partner.

1. Charging On / Off

Before first use, charge your device using the provided cable (approx. 25 minutes). While charging, the LED will glow orange and turn green once the battery is full.

To turn on the device, press briefly (<1 second); the LED will flash red.

To turn it off, press and hold (>2.5 seconds) or simply wait 5 minutes of inactivity—the device will switch off automatically.

When the device is powered off, the LED will also turn off.

2. Personalized calibration

Your device adjusts its intensity based on your movements.

Activate Calibration mode (dark blue LED) by connecting the device and pressing and holding the button.

Unplug the device, test the intensity levels, and select your MIN and MAX settings with a long press. These settings will define the intensity range for Auto mode.

The device will turn off to confirm the settings. Turn it on again while unplugged to use it normally.

3. Usage Modes

Your device offers two modes to suit your preferences.

In Auto mode, it adjusts its responsiveness based on your movements with three sensitivity levels:

 Gentle  Moderate  Intense

Switch between levels with a short press (<1 second).

In Manual mode, you control the intensity directly across 10 preset levels, also adjustable with a short press (<1 second). The LED shows the current level with a steady color.

Calibrate your device

Personalized your experience — Because your pleasure is unique as you are.

Your device automatically adjusts its intensity based on your movements thanks to its built-in sensors.

For a personalized experience, you can calibrate the stimulation intensity by setting a minimum and maximum level.

Once configured, the device responds to your gestures within this customized range (Auto mode).

To active calibration mode :

1. Plug in the device,
2. Press and hold (1 à 3s) until dark blue LED appears.

To calibrate the stimulator, in calibration mode :

3. Disconnect the device and place it on yourself (product on)
4. Test the intensity levels - short press to change level (loop)
5. Press and hold (1–3 seconds) to select the MIN range.
6. Test the intensity levels again. - short press to change level (loop)
7. Press and hold (1–3 seconds) to select the MAX range.
8. The device will turn off to confirm the setting.

Restart the device (unplugged) for normal use.

If an error occurs, simply switch off and start again.

Usage Modes

Auto Mode or Manual Mode: two options, one promise—adapt each moment to your desires, balancing spontaneity, control, and tailor-made pleasure.

AUTO MODE

Easily adjust the stimulator's responsiveness to your movement habits using the **3 sensitivity levels**:

● Gentle ● Moderate ● Intense

Use a **short press** (<1 second) to switch between levels.

MANUAL MODE

Adjust the intensity to your personal preference using the **10 preset speed levels**.

Use a **short press** (<1 second) to switch between speeds.

The LED displays the current speed (steady color).

Harness setup

Crafted to combine support and comfort, our harness and stimulator naturally adapt to your body for an optimal experience.

Prepare the harness

Loosen the straps before use. Make sure the central ring (or holder) is easily accessible.

Put on the harness

Step into the straps as you would with underwear. Pull the harness up to the hips. Adjust with the Velcro straps to fit your body size and shape.

Install the device

Slide the base of the device into the central ring provided. Check the fixation carefully. Ensure the device is securely in place before use.

Ajout Patch ? photo harnais + patch ?

Adjust to your body

Tighten the straps gradually for a firm yet comfortable fit. The harness should feel secure without restricting your movement.

Care & Maintenance

ClitoShare & RealShare

Care & Maintenance

Our devices are made of biocompatible silicone, free from latex and phthalates, ensuring softness and easy cleaning.

Both CLITOSHARE & REALSHARE are fully waterproof, making maintenance simple.

Always clean thoroughly before and after each use.

Wash the silicone surface with lukewarm water and antibacterial soap.

Rinse well with clean warm water.

Gently dry with a clean, lint-free cloth.

add operating temperature conditions

Warning !

Never use cleaners containing alcohol, petroleum, or acetone, as these may damage the silicone.

Avoid using hand creams or silicone-based lubricants with CLITOSHARE & REALSHARE, as they may permanently alter the surface.

Always use water-based lubricants.

Do not expose the product to direct sunlight or excessive heat.

Store in a clean, dry place, away from dust.

Avoid storing in direct contact with other silicone objects or incompatible materials.

Software update

To extend the life of your CLITOSHARE & REALSHARE devices, regular updates are available on our website:
<https://lets-share-group.com/>

Steps:

- Download the update from your product page.
- Activate Calibration Mode (see p.12) to enable wireless connection (dark blue LED).
- Connect wirelessly to your computer (Apple or Windows).
- Install the update.

The LED color will confirm that your device has been successfully updated.

Keep your product up to date easily! Scan the QR code and follow the instructions.

Charging & Battery

ClitoShare & RealShare

Charging & Battery

This product includes a built-in rechargeable Li-Ion battery, designed for safe, long-lasting, and efficient use.

Technical specifications :

- **Battery type** : Rechargeable Lithium-Ion
- **Full Charge time** : ~ 25 minutes
- **Battery life** : up to 1 hour (depending on intensity)

Precautions :

Only use the supplied cable for charging.

Never open, modify, or attempt to replace the battery.

Do not leave the product charging unattended for long periods.

Avoid exposure to extreme temperatures (below 0°C or above 45°C).

If you notice leakage, overheating, or swelling, stop use immediately and contact after-sales support.

End of life & Recycling :

Do not dispose of this product with household waste.

The battery contains substances that can be harmful to the environment.

According to local regulations (EU Directive 2012/19/EU, WEEE), take the product to an approved collection point or return it to your distributor.

FCC / IC Compliance Statements

FCC statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IC statement

This device complies with Industry Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device

Déclaration IC (Français)

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ISED Radiation Exposure Statement:

This equipment complies with ISED RF radiation exposure limits set forth for an controlled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet appareil est conforme aux limites d'exposition de rayonnement RF ISED établies pour un environnement non contrôlé.

Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.
