

90*90mm

Plug-in Scent Diffuser
Instruction Manual

Model: WD200

Introduction

Thank you for purchasing our plug-in scent diffuser.

The diffuser uses advanced cold-air diffusion technology. It requires no water or heat, and preserves the natural properties of your essential oils.

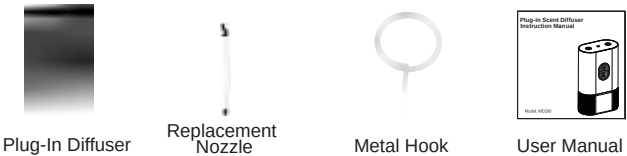

The diffuser atomizes essential oils into a fine, fragrant mist, creating a perfect atmosphere for any space and helping to promote a sense of calm.

Bottle capacity: 50ml

Voltage: AC100-240V
Material: Aluminum Alloy+PP
Coverage: 600 square feet

Color box includes:

Troubleshooting

Issue	Solution
No visible mist	This is normal and varies by oil. If you can smell the fragrance but don't see mist, that's because the atomized particles are ultra-fine and may not be visible.
No smell / no visible mist / no air coming out from the top outlet	Replace the old nozzle with the spare nozzle (included in the accessories bag).

Warning

- Do not touch the diffuser with wet hands.
- Do not connect or disconnect the power plug with wet hands.
- Do not use the diffuser in wet, high-temperature, or other extreme environments.
- Keep it out of reach of children and pets.
- Do not incinerate — risk of explosion.
- Do not leave the diffuser tilted for extended periods when oil is inside, otherwise oil may leak.
- Turn off and unplug the diffuser before refilling oil.
- For long-term storage, remove and store the nozzle and diffuser separately.
- Power off and unplug before cleaning.

FAQ

- What type of essential oil does this diffuser use?
Use pure essential oils or fragrance oils. Do not add water to the diffuser.
- When diffusing, can't see the mist?
Please check our mist intensity settings and refer to Troubleshooting.

How to maintain the device

The scent diffuser should be cleaned every 1-2 months to ensure optimal performance.

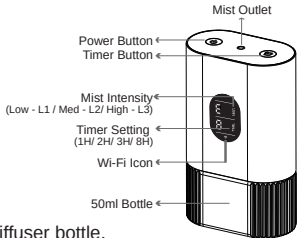

To clean the inner workings of the device, please follow these steps:

- Rotate the bottle of the diffuser, and fill alcohol to the bottle.
- Install the bottle to the diffuser.
- Turn on the diffuser and keep working for 15 minutes to ensure alcohol goes through the whole device.

Unplug diffuser and keep the diffuser in an upright position. Wipe the device with a damp cloth to remove oil stains and fingerprints. Don't use any harsh or abrasive cleaners to clean the device.

Product Overview

Operation Guide

- Step 1:** Rotate (unscrew) to open the diffuser bottle.
- Step 2:** Add fragrance oil — pour your favorite oil into the bottle.
- Step 3:** Rotate (screw) the bottle back onto the diffuser.
- Step 4:** Plug the diffuser into a power outlet.
- Step 5:** Touch the power button to turn it on, then touch the button to adjust mist intensity setting.

Enjoy scents that inspire, excite, and refresh you.

Wi-Fi Pairing

With the device off, press and hold the power button for 6 seconds to enter Wi-Fi pairing mode. During pairing, the Wi-Fi icon blinks. Once pairing is successful, the Wi-Fi icon stays solid.

Power On/Off

- Plug the diffuser into a power outlet, then touch the power button to turn it on. By default, the diffuser starts misting at L1 (Low) intensity with an 8-hour timer and blue LED light.
- While the diffuser is on, press and hold the power button for 1 second to turn it off.

Timer Setting

While the device is on, press the timer button once to adjust the timer.

The screen displays	Automatically Turns Off After
1	1 hour
2	2 hours
3	3 hours
8	8 hours

Ambient Light Control

Press and hold the timer button for 1 second to cycle through colors: Red → Green → Purple → Cyan → Yellow → White → Blue → Off → (then back to Red).

Mist Intensity

While the device is on, touch the power button once to switch the mist intensity.

Modes	Mist	Pause
Low-1	15S	165S
Med-2	60S	120S
High-3	120S	60S

How to Replace the Nozzle
