

5000mAh Magnetic Charger	Parameter Productname : Wireless Power Bank Model:PB5 Lithiumbatterycapacity:5000mAh/3.85V/19.25Wh Wh Ratedcapacity: 3000mAh(5V⚡ 2A) USB-C Input : 5V⚡ 3A/ 9V⚡ 2.22A USB-Co Utput : 5V⚡ 2A/ 9V⚡ 2.22A USB-C +Wireless Output: 10W+5Wmax Wirelesscharging Output: 5W, 7.5W, 10W, 15W Warning: Do not use after getting wet! Dongguan Innosmart Electronics Co., Ltd. Made in china	1. Charge the power bank Connect the power adapter to the Type-C port of the power bank, then plug it into the power outlet. 	2. Charge your phone ① Attach to the back of iPhone 12/13/14/15/16/17 (with or without MagSafe case) for charging, with a maximum power output of 15W.  Note: No need to press the power button. Just attach the power bank, and it will automatically charge the phone. When you remove the power bank, the charging will be automatically disconnected.	Alternatively, you can use a charging cable to connect the power bank's Type-C port to your phone for wired charging, with a maximum power output of 20W. 
3. Keys and Indicator Lights Press the power button of the power bank. The indicator light will turn on to show the current power.  explain : ① The Type-C port is used for input and output. ② The mobile power supply has built-in safety protection mechanisms, including over voltage and over current protection mechanism, over charge protection mechanism, short circuit protection mechanism, over temperature protection mechanism, over discharge protection mechanism and electromagnetic shielding protection mechanism.	pay attention to : Do not place the battery or device near a heat source or exposed fire source, such as electric heater, microwave oven, oven, water heater, stove, candle or other high temperature source, otherwise it may cause equipment failure, fire or explosion; Putting a battery pack into a fire or heating furnace, or mechanically squeezing or cutting a battery pack can lead to an explosion; If consumers use a power adapter for charging, they should purchase a power adapter that is compatible with the CCC certification and meets the standard requirements.			Carry Lighter, Live Now.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
