Safety Notice

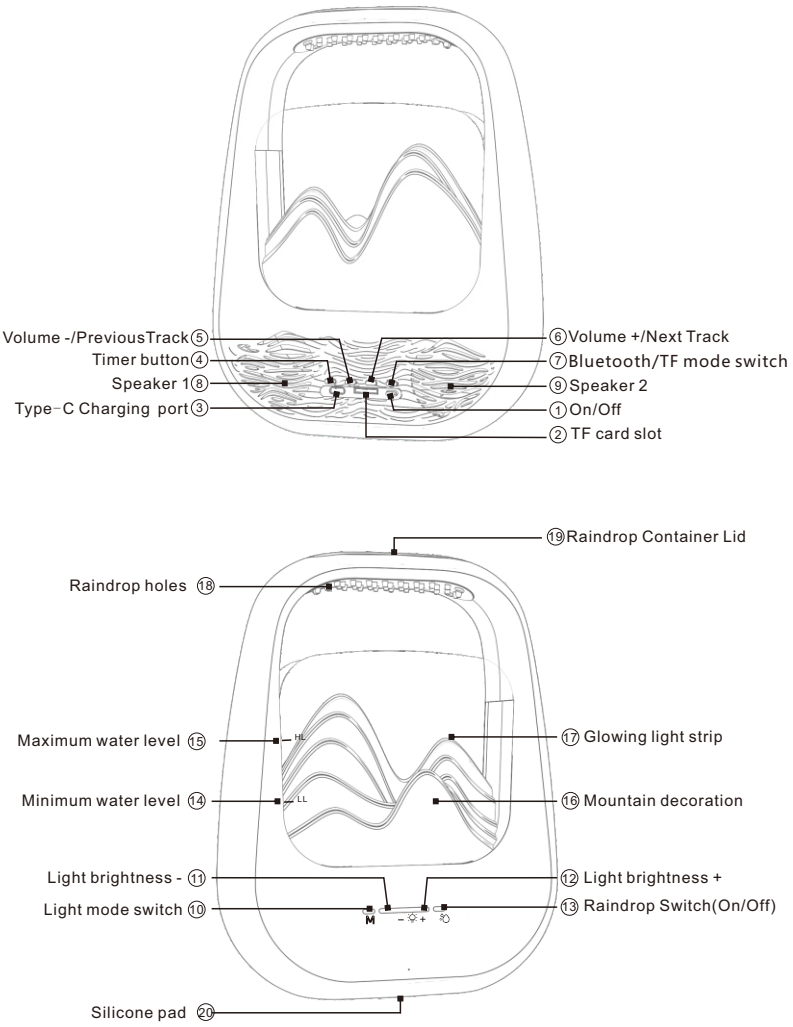

- 1.Electrical Safety
- Please use a regular charger with specifications of 5V2A or 5V3A for power supply to prevent damage to the device caused by voltage instability. Do not use 9V or 12V chargers.
 - Do not leave for a long time while charging, and disconnect the power supply in time after fully charged.

- 2.Operating Environment
- Avoid environments with high temperature, humidity, or strong magnetic fields.
 - Do not place the speaker on soft items such as pillows or quilts, or on significantly uneven slopes, to avoid blocking the cooling vents and preventing water leakage from the device's water tank due to tilting.
 - When using the device outdoors, empty the water stored in the water tank before carrying it. After placing it steadily, inject water and then use the device.
 - For water injection into the device's water tank, please use clean and pure water sources. Do not use water sources with impurities.
 - When filling the water tank, take care not to spill water onto the charging port or the speaker sound outlet.
 - When the device is in use and the raindrop function stops working, you can repeatedly short-press the raindrop on/off button until the raindrop function works normally.

- 3.Target Users
- Suitable for users of all age groups.
 - Children should be used under adult supervision.
 - It is recommended that people with hearing sensitivity turn down the volume when using the device.
 - It is recommended that people sensitive to light dim the lights when using the device.

- 4.Prohibitions
- Do not disassemble or modify the product, as this may cause malfunctions or safety hazards.
 - If the device gets water inside, do not turn it on. Clean and dry it thoroughly before powering on.

Lighting Scene Mode Instructions

1. Warm White Light(Hidden Light Secret Shadow)
The light is visible while the lamp is hidden. With soft warm white light (4000K-5000K), it simulates the effect of moonlight pouring down, and the flowing water over rocks creates a warm and natural atmosphere.
Recommended usage scenarios: work, study, negotiation, recuperation
Function and Effect: Relax the mind, enhance concentration, and alleviate anxiety.
2. Single-Color Light(Plain Color Light Rhythm)
Single-color tone endows a peaceful and harmonious atmosphere, and the dynamic effect of water droplets creates a space for emotional relief.
Recommended usage scenarios: meditation guidance, breathing exercises, pre-sleep relaxation
3. Color Light Rotation(Quiet Night Flowing Light)
Color lights rotate, turning movement into stillness. Paired with night-time raindrops and deep breathing rhythms, they lead to a secluded dream realm, creating a space for sound sleep.
Recommended usage scenarios: insomnia, high stress, deep sleep
Function and Effect: Block interference, relax emotions, and deeply aid sleep.
