Re: Certification for Semeq Systems Corp. AxonHD EX Series
FCC ID: 2BSOL-AXONHDEX

If necessary, we have enclosed application materials for certification of Semeq Systems Corp. AxonHD EX Series. It has been verified to comply with CFR Title 47, Part 15.247.

Current Variants:

There is only a single hardware variant (HVIN): AxonHD EX. There are a total of three sub-variants with minor firmware configuration changes as follows: AxonHD Ex, AxonHD WT Ex and AxonHD CL Ex. All variants employ identical HW with the only difference being firmware configuration at the factory before shipping. The manufacturer declares the EUT provided for testing represents the worse case configuration with regards to emissions.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 252-9785, or e-mail info@wrtest.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Joe D. Brunett', is written over the printed name.
