

Information to User

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.

Important: Change or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Instructions B JL-671

Battery Operation

Insert one 18650 lithium battery into the battery compartment to use the radio.

NOTE:

Charge for 4 hours during first use.

Remove batteries if the radio will not be used for a long time.

Function Operation

1. Select the desired broadcast band using the FUNCTION/BAND switch.
2. Adjust the VOLUME to a comfortable listening level.
3. Use the TUNING dial to select your preferred station.
4. Extend the TELESCOPIC ANTENNA for optimal FM/SW reception.

Use the Internal Iron Oxide Bar Antenna

A.This radio has an internal iron oxide bar antenna for receiving AM signals.

B.When listening to the AM, try to change the radio's location or adjust its orientation for better reception.

C.It's better to use it near a windows or open space, in order to receive better signals.

5.Power Supply: DC 5V(0.75W-5W) / 1200mAh(4.44wh) Li-Ion Rechargeable Battery

6.Packing list: 1 ×radio, 1 × Li-Ion rechargeable battery, 1×USB Type-C charging cable, 1 × manuals.

KINDLY REMINDER

1.Please read the user's manual before first use of the radio.

2.Do not use benzene thinner or any abrasive powder to clean the radio's shell.

3.Do not placed the radio in water, or close to fire.

4.Do not place the radio near strong magnets such as those used in amplifier, television set, speaker boxes etc.

5.Do not drop or give the radio a strong shock.
