Play Setting

Maintenance & Safe use

- Avoid any Magnetic materials near the Play-pot or Seeds as they could cause Damage and prevent the product from functioning properly.
- Store the Seeds in the Seed pot when not in use. Avoid exposing the Play-Pot or Seeds to extreme temperatures.
- Store to use only the Seeds manufactured by RollingSeeds when playing. Do not put any other substance in the Play-Pot's Seed Gate as this may damage the product and prevent it from functioning properly.
- To play properly, make sure to place the Rolling Seeds Play-Pot on a FLAT surface so that the Seeds can roll properly without getting stuck in the Seed tunnel.
- When using a tablet PC mounted on the Play-Pot, ensure that it is placed Horizontally with the screen facing towards the front where the power button is located. Avoid tapping the screen with excessive force as it may cause the tablet PC device to fall to the ground and become damaged.
- Clean the Play-Pot, Seeds, mini Seed Pot, and Seed trays regularly with a soft, damp cloth to maintain their functionality and hygiene. Avoid using harsh chemicals when cleaning.
- Children should be supervised while using the Play-Pot with any smart devices and charging the battery.

Warning: Play seeds are not suitable for children under 3 due to choking hazard. Keep away from kids under 3.

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be located or operating in conjunction with any other antenna or transmitter.

ISED RSS Warning:

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ISED RF exposure statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

Le matériel est conforme aux limites de dose d'exposition aux rayonnements énoncés pour un autre environnement. Ce dispositif a été évalué à satisfaire l'exigence générale de l'exposition aux rf.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.
