Simply connect the soundbar's USB plug to an available USB port on a computer, laptop, or TV that can output audio, and it will be ready for use.
2. wireless Mode
Press the mode button for 2 seconds to switch to wireless mode. Open the wireless search page on the main device you want to connect to the soundbar look for the device named "MU-C06", and select it. Once the soundbar provides a voice prompt, the connection will be completed and ready for use.

System Requirements

Compatible with devices that support USB audio output (e.g., computer, phone, tablet, MP3/MP4 player, CD player, radio, etc.).

Usage steps:

1. Connect the USB cable to a power source (computer USB port or 5V/1A phone charger).
2. Turn on the sound source and adjust the volume.

Frequently Asked Questions

1. Low or distorted sound: The charger current is insufficient. Replace with another charger.
2. Low volume: Adjust the sound source device to a suitable level.

Safety Precautions

1. Do not disassemble or replace internal parts unless specified in the manual.
2. This product is not waterproof. Do not expose to water or other liquids.
3. If liquid accidentally enters the device, disconnect power immediately and clean it.
4. Ensure hands are dry when installing or removing the product to avoid electric shock.
5. Do not place the product near heat sources, fire, or strong electromagnetic environments, otherwise damage may occur.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

Return Warranty Policy

30-Day Money-Back Guarantee
We stand behind the quality of our products. If for any reason you are not completely satisfied, you may return your purchase within 30 days for a full refund — no questions asked.

3-Month Limited Warranty
Your purchase is covered by a 3-month warranty. During this period, if the product has any defects in material or workmanship, we will provide a free replacement or repair.

Customer Support
Our customer service team is here to help with returns, replacements, or any questions you may have.
