

HELMET WIRELESS EARPHONE

CIO

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

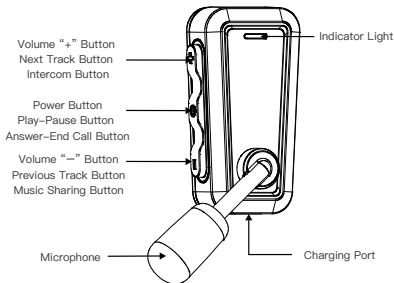

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

User Manual

Product Overview

Important Notes:

1. Before installing the headset, please connect it to your phone and test the volume level. 2. If there is a significant volume difference after installation in the helmet, please adjust the speaker position inside the helmet.
3. When you hear the low battery prompt, please charge the device promptly.
4. This product is suitable for low-speed riding, fishing, and similar activities. It is not recommended for high-speed riding scenarios.

• Cross-Brand Connection On / Off

- After powering on, press the Volume "+" and Volume "-" buttons simultaneously to enable/disable cross-brand connection (cyan light flashes rapidly). Ensure that other Bluetooth headset devices are not connected to a phone.

Press the Volume "+" and Volume "-" Buttons Simultaneously

Bluetooth Device

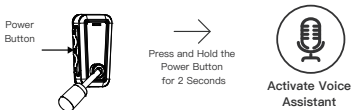

Note:

- In cross-brand connection mode, the other device cannot be powered off while connected. It can only be turned off after disconnecting from this device.
- In cross-brand connection mode, music sharing or group chat functions are unavailable. Only intercom is supported.

• Music Functions

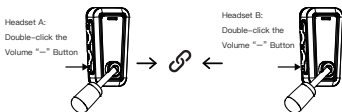

• Voice Assistant

• Music Sharing Pairing

- Double-click the Volume “-” Button to enable/disable Music Sharing Mode
- A/B devices enter pairing mode, and the blue light flashes rapidly
- After successful pairing, the sharing device flashes blue rapidly, while the receiving device flashes blue slowly

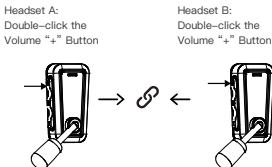

Note:

1. In music sharing mode, the blue light flashes rapidly after A/B devices disconnect.
2. In music sharing mode, the volume and playback buttons on each device only control the phone connected to that device.

• Intercom Pairing On / Off

- Double-click the Volume “+” Button to enable/disable intercom mode.
- A/B devices enter pairing mode and the green indicator flashes. After successful pairing, the green light flashes slowly.

•Charging Mode

The indicator light turns red while charging and blue when fully charged

(When the device is powered on, connecting the charger will automatically power it off)

•Note

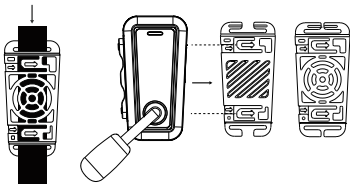

1. If the device cannot be found or other abnormal situations occur, press and hold the Power Button for 18 seconds to reset. The red light will stay on for 1 second to indicate a successful reset.

2.Signal interruptions caused by strong interference sources during ridin(such as traffic lights or base stations) are normal and are not related to product quality.

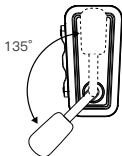

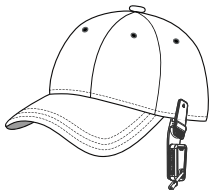

• Installation Instructions

Cycling Helmet Retention Strap

1. Select a suitable back clip according to the width of the helmet strap and secure it first. The side with the arrow should face outward.

2. Align the headset with the arrow direction and slide it in horizontally to secure it. Slide it out horizontally to remove the product.

Spring Clip Usage: Simply clip it onto a suitable position on the helmet for use.
