OPERATING GUIDE

For the DSKL8R Device

Please also refer to:

<http://dskl8r.com>

Read this first

Before operating the unit, please read this manual thoroughly and retain it for future reference.

You understand that having and using DSKL8R, is not a guarantee that you will not be injured in an attack.

DSKL8R is simply a tool, and that you assume all risks and responsibilities associated with its use.

The manufacturer makes no claim that activating your DSKL8R will prevent, stop or alleviate an attacker.

WARNING

To reduce the risk of fire or electric shock;

Do not expose the unit to rain or moisture.

Do not place objects filled with liquids, such as vases, on the unit.

Do not expose the battery to excessive heat such as sunshine, fire or the like.

IMPORTANT SAFETY INSTRUCTIONS

SAVE THESE INSTRUCTIONS. DANGER – TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR PERSONAL INJURY, CAREFULLY FOLLOW THESE INSTRUCTIONS.

- Read these instructions
- Keep these instructions
- Heed all warnings
- Follow all instructions
- Do not use the unit near water
- Clean only with dry cloth
- Do not block any ventilation openings
- Use in accordance with manufacturer's instructions
- Protect the power/charging cord from being walked on or pinched particularly at plugs and the point where they exit from the unit
- Only use attachments/accessories specified by the manufacturer
- Use only as intended. Do not leave unit plugged in during lightning storms, or when unused for long periods of time

Refer all servicing to qualified service personnel. Servicing is

required when the unit has been damaged in any way, such as power supply or cord is damaged, liquid has been spilled or objects have fallen into the unit, the unit has been exposed to rain or moisture, does not operate normally, or has been dropped to the extent where the protective case is or may be breached.

CAUTION

Battery pack

If the battery pack is mishandled, the battery pack can burst, cause a fire or even chemical burns. Observe the following cautions:

Do not disassemble

Do not crush and do not expose the battery pack to any shock or force such as hammering, dropping, or stepping on it

Do not short circuit and do not allow metal objects to come into contact with the battery terminals

Do not expose to high temperature above 60C (140F) such as in direct sunlight or in a car parked in the sun

Do not incinerate or dispose of in fire

Do not handle damaged or leaking lithium-ion batteries

Be sure to charge the battery pack using a recommended battery charger or a device that can charge the battery pack

Keep the battery pack out of the reach of small children

Keep the battery pack dry

Replace only with the same or equivalent type recommended by DSKL8R

Dispose of used battery packs promptly as described in the instructions

USB Cable

Disconnect the USB cable from the DSKL8R immediately if any malfunction occurs while using the unit or charging the unit. Be

careful not to use your bare hands when grasping any part of the USB cable connectors to avoid burns or shock.

Even if your unit is not activated, the AC power source is still supplied to it while connected to the charger via the USB cable.

For Clients in the U.S.A. and Canada

RECYCLING LITHIUM-ION BATTERIES

Lithium-ion batteries are recyclable.

You can help preserve our environment by returning your used rechargeable batteries to the collection and recycling location nearest you.

For more information regarding recycling of rechargeable batteries, call toll free 1-800-822-8837, or visit

<http://www.call2recycle.org/>

Caution: Do not handle damaged or leaking Lithium-Ion batteries.

For Clients in the U.S.A.

If you have any questions about this product, you may contact DSKL8R Customer Service at DSKL8R.com

CAUTION

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures

Reorient or relocate the receiving antenna

Increase the separation between the equipment and receiver

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

Consult a dealer or an experienced radio/TV technician for help

Supplied items

The numbers in the () indicate the supplied quantity

DSKL8R	(1)
USB connection and battery charging cable	(1)
Operating Manual, (This Manual)	(1)
Quick Start Guide	(1)

Getting Started & Charging the Battery

Always use either the charging cable that shipped with your device, or another substantial cable. It is best to plug the cable directly into a power source, (USB port, a charger that is directly in a wall outlet, etc. Do not use an extension cord between the power source and the charging cable.

Ensure the unit is intact and has not been damaged or come apart during shipping.

Plug in the standard USB connector directly into your USB charger.

GENTLY open the charging door on the side of the DSKL8R main head and plug in the USB-C connector to the port.

IMPORTANT! NEVER FORCE THIS PLUG INTO THE PORT! It can severely damage your unit and make it inoperable.

When power is reconnected, this begin charging the battery pack with a pulsing red LED every 30 seconds indicating that charging us underway. **NOTE:** If battery is fully charged, the RED LED will not pulse.

The battery pack ships with some power, but it is recommended to fully charge the battery pack for a maximum of 10 hours, when the battery is fully depleted.

Recharging Battery

We recommend that you plan to charge your DSKL8R battery after at least 1 hour of use. It is advisable to keep a full charge so the unit is ready to go.

When the battery pack is fully charged, disconnect the USB cable from your USB charger.

TEST ACTIVATIONS/PRACTICE

READ ALL OF THESE INSTRUCTIONS PRIOR TO TEST ACTIVATIONS. YOU MAY ACTIVATE THE UNIT AND NOT BE FAMILIAR WITH DEACTIVATING IT IF YOU DON'T.

It is recommended that you test and practice with your device at regular intervals to ensure familiarity of the system, and proper functionality before an emergency occurs.

However, this is not a toy and should be treated seriously. Random or haphazard activations can upset or disturb people and animals around you. Test and practice with your DSKL8R ONLY in areas and times when you can minimize the impact of those around you.

It is also highly recommended that you wear some type of hearing protection and prepare yourself not to look directly into the lights when testing. Sustained exposure to the proprietary light and sound patterns may cause severe discomfort, nausea, or damage.

FLASHLIGHT MODE:

Click the rear button once to activate the white LEDs, (flashlight mode). Use as you would any regular

flashlight.

To turn off the flashlight, simply press and hold the rear button for 2 seconds.

DISRUPTER MODE:

When in flashlight mode, click the rear button again to activate the Disrupter light and sound patterns.

TO DEACTIVATE THE DISRUPTER:

Click the rear button once again.

BATTERY STATUS MODE AND INDICATORS

To check battery status when the device is NOT in flashlight mode, press and hold the button for 2 seconds.

Observe the LED Indication for charge status:

51-100%: White LED flashes 3 times

21-50%: Red and White alternate 3 times

0-20%: Red LED flashes three times

Release the button and the device returns to normal mode.

NOTE: If the battery has discharged below its ability to activate the flashlight, you will see a SOLID RED LED. The device is inoperable at this level and MUST BE CHARGED to at least 20%.

DROPPED MODE

If the unit is not activated, and is dropped from 3' or more; the siren will chirp and the red LED will flash every 0.50 seconds until the rear button is pressed. This is designed to help you locate and retrieve your device if it is dropped, especially at night, in a field; for example.

PRECAUTIONS

DSKL8R is NOT A TOY. This is an advanced non-lethal personal defense technology that if mistreated, has the potential to startle, scare, upset, and even harm people and animals. Treat it the same as you would a firearm, knife or any other weapon system.

Siren

Do not place the unit, especially the siren output hole near or directly upon any person's or animal's ear. The volume and pattern are designed to be powerful and may cause temporary or permanent hearing damage if misused.

LED Light system

Do not place the unit, especially the LED light bar near or directly into any person's or animal's eye (s). The intensity and pattern are designed to be powerful and may cause temporary or permanent sight damage if misused.

Battery Charging

Do not short-circuit the battery terminal with any metal objects. This may cause a malfunction. Use the included charging cable directly to a power source—no extension cords.

NEVER FORCE THE CHARGING CABLE INTO THE UNIT!!

Always align the plug with the port, and gently insert the cable. Failure to properly make the connection may permanently damage the circuit board and render your unit inoperable! **BE CAREFUL!**

DSKL8R Temperature

If you activate DSKL8R continuously for a long period of time, the system may get warm, including the LED Light System. This is not a malfunction. The system can sustain this, but it is not advisable to activate and leave the system on unless absolutely necessary.

Overheat Protection

In the event that DSKL8R exceeds temperature limits, it is recommended that you let the device cool or warm and return to normal operating limits.

If you attempt to activate the unit when it is outside its temperature limits, the system may automatically prevent it.

Water Intrusion

DSKL8R is certified to IPX7 intrusion standards. If it is submerged into water, the device should continue to work. The sound ports allow water to enter, so it is advisable to turn the device face down and shake out as much water as possible. Then, if you are in a safe area, activate the Disrupter Mode and let the siren kick out any excess water it can.

Bluetooth

DSKL8R communicates with certain features via Bluetooth. DSKL8R does not capture and/or send any of your personal information outside of the DSKL8R system.

Troubleshooting

If you run into any problems using your DSKL8R:

Refer to this manual, the DSKL8R website, Videos, FAQs, or email us at DSKL8R.com

Trademarks/Patents

Bluetooth is owned by the Bluetooth Special Interest Group (SIG).

DSKL8R is protected by US Patent #12,025,410

DSKL8R is a registered trademark in the United States.

FCC ID: 2BSUP-2SAM2240

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

All other product names mentioned herein may be the trademarks of their respective companies. Furthermore, [™] and ® are not mentioned in each case in the manual.

There are many helpful videos and tips at the DSKL8R.com. Please review them anytime you have questions. If you have an issue that is not addressed at the website or this manual, please contact us at DSKL8R.com

Thank you very much for your commitment to your safety and to those around you!
Hopefully you'll never have to use this powerful technology, but it's comforting to know that you have it with you if you do.

Enjoy knowing you are now part of an extraordinary and unique community!
