

Declaration of Differences

Model No.:54237-1

Trade Mark.: CROSSCALL

FCC ID: 2BSUT-54237

This declaration is issued to formally describe the differences in memory component configurations for the referenced product model and to confirm that such differences do not impact the product's RF or EMC performance. Details are as follows:

1. Description of Memory Configuration Differences

The product is manufactured with two optional memory configurations. The detailed component information is listed below:

Sample	Memory Model	Manufacturer
Sample 1	KM5P9001DM-B424_P03\TP\JK\ROH	SAMSUNG
Sample 2	64UM32-M4GTY7B_GA04	Kingston

2. Impact Assessment on Product Compliance

Except for the memory component differences listed above:

- 1) No changes have been made to the product's RF circuitry.
- 2) No changes have been made to EMC-sensitive components.
- 3) No changes have been made to the software/firmware affecting RF/EMC characteristics.
- 4) No changes have been made to mechanical structure, PCB layout (excluding the memory footprint, if applicable), or accessories.

We hereby declare that the above content is true and valid, and shall bear the corresponding legal liability for the authenticity of the declaration content.
