

① Download the Lodestar Tech App and Set Up Your Account

Security note:

For your protection, the app automatically logs you out when you exit or close it.

② Connect Your Charging Pad to Wi-Fi

Plug in the Charging Pad

Press and hold the Wi-Fi button (📶) until the Wi-Fi LED turns **solid blue**.

When the pad is connected to Wi-Fi, the light will turn **green**.

Open the app and go to **Profile**. Select **Charger**, then follow the on-screen prompts.

Note: The **Bluetooth®** LED will turn green once the charger connects to your LNK9 in Step 3.

- **Green** = Connected to Wi-Fi and Bluetooth
- **Pink** = Resetting
- **Blue** = Searching for signal
- **Blue** (blinking) = Charging

Left facing Charging Pad

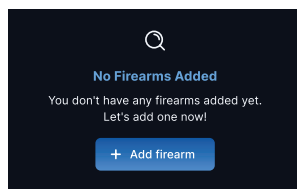

Right facing Charging Pad

③ Add Your Firearm in the App

Select **Pair** when prompted. Follow the on-screen instructions.

If your firearm doesn't connect automatically, press the **top button on the PIN pad** of your LNK9.

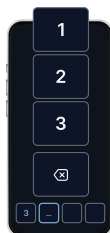

④ Set Your PIN Code Sequence

Using the app, create your four digit PIN code sequence for alternative access.

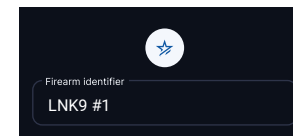

Security note:

Some combinations cannot be programmed: repetitive numbers (i.e. 1111, 2222, 3333).

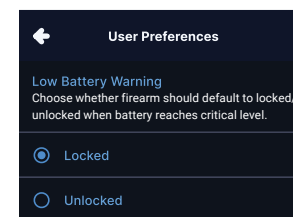

⑤ Name Your Firearm

Choose a firearm identifier (e.g., "Home Gun," "LNK9 #1," etc.).

⑥ Select Your Preferences

Choose your settings, including your preferred lock/unlock status when the battery is low.

⑦ Add Fingerprints

Follow the **in-app instructions** to enroll fingerprints using the **Biometric LandingPad™** on your LNK9.

On-screen prompts and the InfoLights™ on the backstrap will guide you through the process.

Fingerprint Enrollment Tips

- Use the **biometric pad on the firearm**, not your phone
- Touch the pad briefly, then lift your finger

Note: Finger orientation does not need to be vertical (like a phone)—any angle works.

Backstrap InfoLights™:

- **Blue** = Ready
- **Green** = Successful scan
- **White** = Error (check the app for instructions)

Use the dropdown menu to select whether each fingerprint belongs to the **Owner** or a **User**.

GENERAL FIREARM SAFETY:

- **Treat every firearm as if it were loaded and unlocked.** Keep it unloaded and locked until you are ready to shoot.
- **Always keep the LNK9 pointed in a safe direction** until you are on target and ready to shoot.
- **Do not** place your designated fingerprint on the Biometric LandingPad, insert your personalized PIN code sequence, or place your finger on the trigger until the firearm is pointed at the target and you intend to fire.
- **Securing and charging your LNK9:** Unload the firearm. After verifying that the chamber is empty and the loaded magazine has been removed, place the LNK9 on the charging pad in a safe, secure location.

If you are unfamiliar with firearms, seek further education through safe handling courses run by your local firearm range, approved instructors, or similar qualified organizations.

WARNING:

Contains a lithium-ion battery. **Do not expose to fire, moisture, or extreme heat.**

WARNING:

This product contains high-strength magnets. Keep out of reach of children. Swallowing magnets can cause serious internal injuries or death. **Seek immediate medical attention if ingestion is suspected.**

WIRELESS DEVICE WARNING:

- This device uses Bluetooth wireless technology and emits low-level radio frequency signals.
- Operate only as intended. Do not tamper with internal components.
- Complies with FCC/IC radio frequency exposure limits.
