The red light remains on during charging.

FAQ

Q1: Can't connect?

A: Make sure the USB receiver is firmly plugged in, both keyboard are switched **ON**, and stay with in 26 ft (8 m).

If it still doesn't work, please re-pair the devices (see **Keyboard Pairing section**).

Q2: Backlight off?

A: This may happen if:

Device enters sleep mode after a few minutes idle → press any key/click to wake.

Battery is low → recharge via USB-C cable.

Backlight was turned off → use ② Backlight Control to adjust brightness/effects.

Q3: Keyboard not responding?

A: Check if the keyboard is charged. Re-plug the USB receiver or try another USB port (avoid hubs). If still unresponsive, re-pair as in Q1.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
