The red light remains on during charging.

Product Specifications

Keyboard:

Length	440mm
Width	161mm
Height	35mm
Weight	750g
Voltage	3.7v

FAQ

Q1: Can't connect?

A: Make sure the USB receiver is firmly plugged in, both keyboard are switched **ON**, and stay within 26 ft (8 m).

If it still doesn't work, please re-pair the devices (see **Keyboard Pairing section**).

Q2: Keyboard not responding?

A: Re-plug the USB receiver or try another USB port (avoid hubs). If still unresponsive, re-pair as in Q1.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Important Security & Compliance

Please read the manual before using the product

Battery Usage Warning! Rechargeable batteries may present a risk of fire or chemical burns if not disposed of properly, and should never be disassembled or exposed to conductive materials, liquids, or temperatures of 54°C (130°F). Batteries exposed to extremely low air pressures may cause an explosion or leakage of flammable liquids or gases. Never use or charge the battery if it is leaking, discolored, deformed, or exhibiting any other abnormality. Do not leave the battery in a discharged or unfit state for a long time. Do not short circuit. Your device may contain a built-in rechargeable battery, and the secondary battery is not replaceable. Battery life varies with usage. End-of-life batteries should be disposed of in accordance with local laws. If there are no local laws and regulations, dispose of your device in the trash can used for electronic devices. Batteries should be kept away from children.

Warning! The power supply is for indoor use only. Do not use a damaged power supply to charge your product. Do not immerse the power supply in water or expose it to physical damage. The power supply should be inspected regularly for accidental damage to the wires, plugs, and housings. Connect the power supply to a properly wired and grounded electrical outlet.
Directions for use: Use the product safely and correctly
Warning! This product contains tiny, detachable parts that can cause suffocation, personal injury or death, especially in children. Please use and handle small parts with care and keep out of reach of children under 4 years of age.
-Do not disassemble or modify the product by yourself. Do not disassemble or attempt to repair this product yourself.

Note: This device has been tested for FCC marking to comply with the limits for use of wireless digital devices. These limits are intended to provide reasonable protection against harmful interference in residential installations. This equipment is intended to be used and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur during a particular installation. If the equipment does cause harmful interference to radio or television reception, it can be determined by turning off the equipment and the user is encouraged to try to correct the interference by one or more of the following measures:
- relocate or move the receiving antenna;
- increase the distance between the device and the receiver;
- connect the device to a circuit socket different from the one to which the receiver is connected;
- Ask for help from a dealer or an experienced radio/TV technician.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The equipment meets the requirements of CE certification. The operation must meet the following two conditions:
1) This device will not cause harmful interference.
2) The device must accept any interference received. This includes interference that may lead to undesirable operation.
