

GPS Electronic Fence & Tracker & Location Tracking

Function Description

1. Turning On the Device: Press and hold the power button for 2 seconds. The device will indicate that it is powering on, and the operation indicator light will illuminate. It will also announce "Starting up," while the indicator light flashes red. Once successfully connected to the server, the indicator light will remain steadily lit.
2. Turning Off the Device: Press and hold the power button for 2 seconds. The device will indicate shutdown, and the operation indicator light will turn off.
3. Charging the Device: The indicator light flashes red during charging. It will stay steadily lit when the battery is fully charged.
4. Battery Information: A full charge takes 2-4 hours. Emergency Mode: Provides approximately 10 hours of operation. Normal Mode: Provides approximately 20 hours of operation. Power Saving Mode: Provides over 24 hours of operation. (Recommended daily usage: no more than 8 hours. Please monitor the battery level regularly.)
5. This device is used only for pets.

Download the mobile app: Search for 'E-FENCE' in the Apple App Store or Google Play Store, or scan the QR code below (also available on the product packaging box).

Using the mobile app:

1. Turn on the device and open the E-FENCE app on your phone.
2. Register an account.

3. Use 'Forgot Password' function to establish your own password

4. Login

5. Map Interface

6. Add Device

On the map interface, press the M key to scan product's QR code (located on the device or its packaging) or enter the code manually. Click the Confirm button to complete the product binding.

FCC warning statements:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
