

Declaration Letter

We (Financial Future(Beijing) Information Technology Co., Ltd.) declare that the module has shut down U-NII bands 5 & 8 through software and these bands are now under the control of a standard power access point. Only the function of U-NII bands 5 - 8 being under the control of a low-power indoor access point (P1) is retained. There are no other hardware changes or software parameter changes to the product. We re-provided the report in accordance with the requirements of the 6XD type, re-evaluated the power and power spectral density, and the CBP test items. Other test data refer to the original report of the module(FCC ID:PD9BE200NG).

FCC Identifier: 2BSYS-A2515
