

Self Electronics Co., Ltd.

Difference declaration

Date: May 27, 2026

Model list:

SLPU-2P1U1C1S-WL, SLP-2P2U1S-WL, SLP-2P1U1C1S-RC-WL

The difference between model SLP-2P1U1C1S-WL and model SLP-2P2U1S-WL lies only in the DC power output interface. Model SLP-2P1U1C1S-WL has one Type C interface and one USB interface, while model SLP-2P2U1S-WL has two USB interfaces.

The difference between the model SLP-2P1U1C1S-WL and the model SLP-2P1U1C1S-RC-WL lies in their dimensions, socket directions, and control boards. The other circuit schematics and PCB layouts, including the wireless module, are the same. We have conducted verification tests on both SLP-2P1U1C1S-WL and SLP-2P1U1C1S-RC-WL respectively.
