

User's Manual

■ Features

- Suitable for nearly all kinds of mobile phones and digital products which have USB cable connector.
- Charging for iPhone, iPod, MP3, MP4, PSP, Cell phone, Bluetooth device, Some tablet PC and other digital products.
- With a precise IC protector to safely avoid over-charging, over-discharging and short circuit.
- Intelligent power management solution, soft switch button, steady and high efficiency.
- 3W Magnetic iWatch Charging, 15W Magnetic Wireless Charging, Built-in 2 Cables, 22.5W Super Fast Charging, USB-C Bidirectional Fast Charging, LED Digital Display.

■ Specifications

Name:	Magnetic Wireless Charging Power Bank		
Model:	HW33W	USB-C Input:	DC 5V=3A/9V=2A/12V=1.5A
FCC ID:	2B73U-HW33W	USB-C Cable Input:	DC 5V=3A/9V=2A/12V=1.5A
Capacity:	10000mAh/36.5Wh	USB-C Output:	DC 5V=3A/9V=2.2A/12V=1.67A/10V=2.25A
Size:	90*63.3*27.5mm	USB-C Cable Output:	DC 5V=3A/9V=2.2A/12V=1.67A/10V=2.25A
Weight:	206g	Lightning Cable Output:	DC 5V=2.4A/9V=2.2A
Total Output:	DC 5V=3A Max	Wireless Charging:	3W / 5W / 7.5W / 10W / 15W

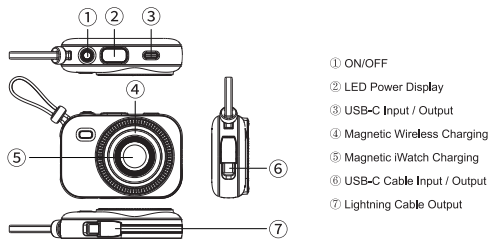

■ Display The Power

For your convenience in understanding the real-time power status of the power bank, you can lightly press the control button once, and the LED screen will display the percentage of power. After the power is used up, the output will automatically turn off.

■ The Power Bank Supply Power For Other Devices

1. Can use the C to C or C to Lightning cable to charge the devices you need.
2. Please take out the built-in cable of Power Bank and insert it into the corresponding port of the device that needs to be charged (note that the corresponding port needs to be appropriate), automatically recognize and charge the device.
3. Please place the device that supports wireless charging at the position of the wireless charging output circle on Power Bank to automatically recognize and charge the device.

■ FCC Warning statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
