

SETUP PHOTOGRAPHS

This document contains 8 photographs

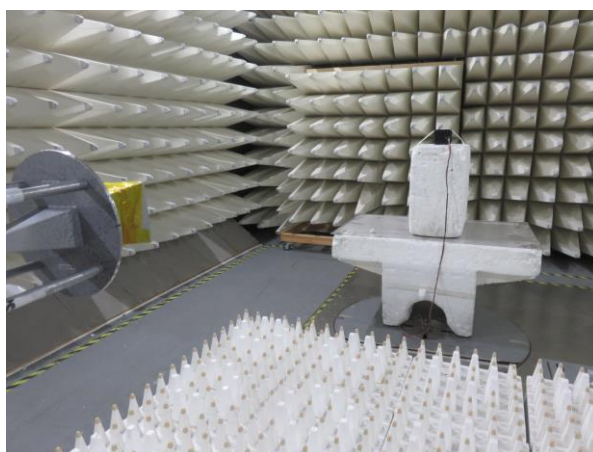

Photograph No.1
Setup for spurious emission field strength measurements in the anechoic chamber below 30 MHz for Mobileye Imaging Radar 1.0

Photograph No.2
Setup for spurious emission field strength measurements in the anechoic chamber in 30 – 1000 MHz range for Mobileye Imaging Radar 1.0

Photograph No.3
Setup for spurious emission field strength measurements in the anechoic chamber
1 – 40 GHz range for Mobileye Imaging Radar 1.0

Photograph No.4
Setup for spurious emission field strength measurements in the anechoic chamber
40 – 154 GHz range for Mobileye Imaging Radar 1.0

Setup in 40 – 60 GHz range	Setup in 60 – 90 GHz range
	
Setup in 90 – 140 GHz range	Setup in 140 – 154 GHz range
