| Phone Button       | Power On<br>In off status, long press 2 seconds to power on.                                                                                                                                                       |
|                    | Power Off<br>In on status, long press 3 seconds to power off.                                                                                                                                                      |
| MFB                | Enter Pairing Mode<br>Search and click to connect "B&GM103B" on your phone Bluetooth lists, LED turns into blue light and flashes slowly after connected; flashes 1 time every 10 seconds ), with prompt "Paired". |
|                    | Redial A Call<br>In connected standby mode, double press MFB to dial the last call.                                                                                                                                |
|                    | Voice Dialing<br>In connected standby mode, long press MFB for 1 second then release.                                                                                                                              |
|                    | Audio Switch<br>When during a call, long press for 2 seconds to switch.                                                                                                                                            |
|                    | Microphone mute<br>When during a call, short press to mute, press again to cancel .                                                                                                                                |
| EQ Switch          | In music mode, triple-click the MFB to switch EQ. A "audi" sound indicates the switch, and a single "du" sound indicates the switch to the default EQ.                                                             |
|                    | Volume Up<br>Short press                                                                                                                                                                                           |
| Volume +           | Next Song<br>Long press for 1 second                                                                                                                                                                               |
|                    | Volume Down<br>Short press                                                                                                                                                                                         |
| Volume -           | Previous Song<br>Long press for 1 second                                                                                                                                                                           |
|                    | Play / Pause<br>Short press when play music.                                                                                                                                                                       |
| Phone Button       | Answer a call<br>When a call incoming, short press to answer.                                                                                                                                                      |
|                    | Hang up a call<br>When during a call, short press to hang up.                                                                                                                                                      |

  

| 3. Bluetooth Pairing and Connection                                                                                                                                          |  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| A. In off status, long press 2 seconds to power on, with Red & Blue lights flicker alternately.                                                                              |  |
| B. Search and click to connect "B&GM103B" on your phone Bluetooth lists, LED change to Blue slow flash once after connected, now you can play music from phone to headphone. |  |
| C. You can press MFB / Volume+ / Volume- / Phone Button to control the answer/hang up a call and play/pause of the music, next and previous song, volume up and down, etc.   |  |

  

| 4. Connection with two devices                                                                                                                                                                                                                                                                         |  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| A. Mobile phones connected to B&GM103B are divided into two sets: Machine A and Machine B.                                                                                                                                                                                                             |  |
| B. Connect machine A first, long press 2 seconds to enter pairing mode, turn on the Bluetooth of machine A and search for the device, search for "B&GM103B" and then click to connect. After the connection is successful, turn off the Bluetooth of machine A and B&GM103B enters pairing mode again. |  |
| C. Then use machine B to connect with B&GM103B, according to the method of machine A. After the pairing is successful, turn on the Bluetooth of machine A and click B&GM103B to connect. (Some mobile phones may have the automatic connection                                                         |  |

  

| 5. LED Indicator       |                                                     |
|------------------------|-----------------------------------------------------|
| Mode                   | LED Indicator                                       |
| Power on               | Blue LED flashes 2 times                            |
| Power off              | Red LED flashes 2 times                             |
| Pairing mode           | Red & Blue LED flash alternately                    |
