① Watch magnetic charging port (rotatable)

② Magnetic charging port for mobile phone

③ Body height adjustment

④ Phone bottom stand

⑤ TWS earphone charging port

⑥ Type-C port input

⑦ TWS earphone charging LED indicator light

⑧ Watch charging LED indicator

⑨ Mobile phone charging LED indicator

• Red light on: Standby mode or not charging

• Green light on: Charging

• Traffic light flashing: Wireless charging detected Foreign object or misalignment (Charging will stop automatically)

Product Introduction

The product can charge three devices simultaneously, is widely compatible with various wireless charging devices, and features a patented foldable storage design to create a tidy desktop environment for you.

Operating steps

Charging cable

9V/3A Adapter (Optional)

Unfold the device, adjust the height, place the charging equipment, and you can start charging.

Charging diagram

Supports magnetic charging for the watch; by rotating the watch charging position, it can achieve compatibility with different brands for charging (Icon: Support Apple Watch series charging, Icon: Supports charging for Samsung series watches, Icon: Supports charging Huawei series watches)

Supports charging wireless earphones such as AirPods Pro and FreeBuds Pro

iPhone 12 and later models support magnetic charging.

Non-magnetic phones that support wireless charging can be used with the bottom stand unfolded for wireless charging.

Applicable Models

Mobile Phone: Apple iPhone 8 and above models
Huawei Extraordinary Master Series Mate 30 and above models
Mate X3 / X5 / X6 / XT Foldable Screen Series
Pura Series Models
P50 Pro / P40 Pro / P30 Pro
*Other models that support wireless charging, regardless of brand

Watch: Apple iWatch Series 3 and above (including SE and Ultra series)
Huawei Extraordinary Master Series
Watch 5 Full Series, Watch GT5 Full Series
Watch Series 4 / GT4 Series
Watch 3 Series / GT3 Series
Watch D / D2 / Fit4 / Fit4 Pro
Watch Buds / GT Cyber / GT Runner
Watch GT 2022D Collector's Edition
Watch GT 2 Pro

Headphones: Apple AirPods 2 (Wireless charging version)
AirPods 3 (MagSafe Magnetic docking version)
AirPods Pro / AirPods Pro 2 / AirPods Pro 3
AirPods 4 (ANC)
Huawei Freebuds 4 Pro
Freebuds 5 Ultimate Edition / Freebuds 3 Pro
Freebuds Pro 2+ / Freebuds Pro 2
Freebuds Pro / FreeClip
*Other models that support wireless charging, regardless of brand

Product Specifications

Model: YF-3
Input: 9V ≡ 3A, 12V ≡ 2.5A
Phone Output: 15W Max
Watch Output: 5W Max
Earphone Output: 5W
MaxInput Interface: Type-C Port
Transmission Distance (Phone): ≤8mm
Charging Efficiency: >75%
Product Dimensions: 80(L) x 70(W) x 40(H) mm

Packing list

Wireless charger *1, Type-C fast charging cable *1, user manual *1

Precautions for wireless charging

● Before use, please confirm whether your phone supports wireless charging;

● Check if the phone is deviating from the wireless charging area on the charger;

● Use a non-metallic case when charging your phone;

● It is recommended that the case thickness does not exceed 4mm;

● It is suggested to stop running background apps while charging your phone;

● After the device is fully charged, remove it promptly and disconnect to avoid prolonged charging, which may cause continuous heating of the device and charger;

Safety precautions

● When a metal object touches the charging area, the charger will automatically detect it and provide power-off protection;

● If the charger becomes too hot, protection will automatically activate. Please unplug the power first and wait until it returns to normal temperature before using the charger again.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and

can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

Thank you for choosing our product.

Wishing you a happy life!
