Request for Confidentiality Letter-FCC

FCC ID: 2BTAH-GEN3EXILRV4

To whom it may concern,

We hereby respectfully request that, pursuant to 47 CFR §§ 0.459 and 0.457(d), the exhibits listed below and submitted in connection with this application for equipment authorization be afforded confidential treatment as indicated

Long-Term Confidential Exhibits

The following exhibits contain trade secrets and proprietary technical information and are requested to be held confidential on a permanent basis:

- Schematics of Radio (including PCB layouts and assembly drawings)
- Frequency Block Diagram of each Radio
- Operational Description (Installation Manual, Product Specification, Technical Data Sheet)
- Bill of Materials

Short-Term Confidential Exhibits

The following exhibits are requested to be held confidential for a period of 180 days from the date of grant:

- External Photos
- Internal Photos
- User Manual (Safety Instructions and Declaration of Conformity)

Justification for short-term confidentiality: The product covered by this application has not yet been marketed or publicly announced. Release of these exhibits at the time of grant would allow competitors to gain advance knowledge of the product's physical design, construction, and features prior to our planned product launch. This premature disclosure could cause substantial competitive harm by enabling competitors to develop similar products before we have had the opportunity to establish our product in the market.

This request applies to any revisions of those exhibits subsequently provided during the review process.

Any exhibit or information for which we have requested confidentiality, but which may not be accorded with such treatment by the FCC, should be returned to us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Y. Lage'.

Name: Yoann Eras Lage
