Product Features

02

1. Fits all makes of strollers.
2. Safe to use from birth onwards.
3. Quiet motor with adjustable speed.
4. USB Rechargeable with long battery life.
5. Built-in multiple white noises
6. It can be linked to Bluetooth (SR10) to play music
7. It can be used while charging

About Charging

1. When the battery is low, the red light flashes to prompt, the red light is always on when charging, and the red light turns off when it is fully charged.
2. It can work while charging, and can be used directly as a direct charging model.

How-to instructions

03

1. Power On/Off:

Turn the top knob switch clockwise until you hear a "click" sound to power on (green indicator light). Gradually rotate the knob forward to adjust the rotation force.

To power off, rotate the knob to the lowest position. A "click" sound will indicate shutdown, and the indicator light will turn off.

2. Song Playback:

Start with the knob at the minimum setting (default: built-in song mode).

Short-press the play/pause button to start or pause playback.

3. Volume & Track Control:

Short-press the forward/backward buttons to increase/decrease volume.

Hold the forward/backward buttons for 1 second to skip to the next/previous track.

Built-in songs will play in a single-loop cycle by default and will not advance automatically unless manually skipped using the forward/backward buttons.

4. Bluetooth Mode:

Hold the play/pause button to activate Bluetooth pairing (blue light flashes).

Once paired, the blue light stays solid, indicating Bluetooth playback mode.

5. Shutdown:

Turning off the top knob switch in any operating state will shut down the device.

How it works

04

① Fit bracket

② Install

③ lock-in

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
