Output power — Band 2

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 2** (24 tables)

For Band 2, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
LTE	1.4 MHz	QPSK	**24.04** dBm	mid · ch 18900
LTE	1.4 MHz	16QAM	**23.43** dBm	mid · ch 18900

Output power — Band 4

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 4** (24 tables)

For Band 4, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 5

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 5** (16 tables)

For Band 5, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
LTE	1.4 MHz	QPSK	**24.18** dBm	high · ch 20643
LTE	1.4 MHz	16QAM	**23.79** dBm	low · ch 20407

Output power — Band 7

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 7** (16 tables)

For Band 7, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 12

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 12** (16 tables)

For Band 12, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
LTE	1.4 MHz	QPSK	**24.19** dBm	· low · ch 23017

Output power — Band 13

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 13** (8 tables)

For Band 13, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 25

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 25** (24 tables)

For Band 25, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 26

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 26** (20 tables)

For Band 26, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 30

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 30** (8 tables)

For Band 30, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
LTE	5 MHz	QPSK	**25.41** dBm	low · ch 27235
LTE	5 MHz	16QAM	**25.03** dBm	low · ch 27235
LTE	5 MHz	64QAM	**24.67** dBm	mid · ch 27260
LTE	5 MHz	256QAM	**22.84** dBm	low · ch 27235

Output power — Band 38

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 38** (16 tables)

For Band 38, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
LTE	5 MHz	QPSK	**25.95** dBm	· mid · ch 38000
LTE	5 MHz	16QAM	**25.21** dBm	· high · ch 38225
LTE	5 MHz	64QAM	**25.01** dBm	· mid · ch 38000
LTE	5 MHz	256QAM	**20.87** dBm	· mid · ch 38000
LTE	10 MHz	QPSK	**25.77** dBm	· low · ch 37800
LTE	10 MHz	16QAM	**25.17** dBm	· low · ch 37800
LTE	10 MHz	64QAM	**24.98** dBm	· low · ch 37800
LTE	10 MHz	256QAM	**23.27** dBm	· low · ch 37800
LTE	15 MHz	QPSK	**25.51** dBm	· low · ch 37825
LTE	15 MHz	16QAM	**24.89** dBm	· low · ch 37825
LTE	15 MHz	64QAM	**24.92** dBm	· low · ch 37825
LTE	15 MHz	256QAM	**23.16** dBm	· low · ch 37825
LTE	20 MHz	QPSK	**25.53** dBm	· low · ch 37850
LTE	20 MHz	16QAM	**25.06** dBm	· high · ch 38150
LTE	20 MHz	64QAM	**24.81** dBm	· low · ch 37850
LTE	20 MHz	256QAM	**23.13** dBm	· low · ch 37850

Output power — Band 41

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 41** (16 tables)

For Band 41, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 42

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 42** (16 tables)

For Band 42, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 43

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 43** (16 tables)

For Band 43, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 48

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 48** (16 tables)

For Band 48, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 66

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 66** (24 tables)

For Band 66, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 71

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 71** (16 tables)

For Band 71, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 2

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 2** (20 tables)

For Band 2, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 5

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 5** (20 tables)

For Band 5, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 7

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 7** (35 tables)

For Band 7, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 12

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 12** (15 tables)

For Band 12, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where
NR	5 MHz	BPSK	**24.05** dBm	· low · ch 140300
NR	5 MHz	QPSK	**24.20** dBm	· low · ch 140300

Output power — Band 25

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 25** (35 tables)

For Band 25, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 26

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 26** (20 tables)

For Band 26, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 30

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 30** (10 tables)

For Band 30, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 38

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 38** (25 tables)

For Band 38, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 41

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 41** (55 tables)

For Band 41, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 48

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 48** (25 tables)

For Band 48, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 66

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 66** (35 tables)

For Band 66, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Technology	Bandwidth	Modulation	Max P_{avg}	Where

Output power — Band 71

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 71** (20 tables)

For Band 71, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 77 A

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 77 A** (55 tables)

For Band 77 A, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 77 B

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 77 B** (55 tables)

For Band 77 B, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary

Output power — Band 78

Maximum **P_{avg}** per (technology · bandwidth · modulation) for **Band 78** (55 tables)

For Band 78, each (technology · bandwidth · modulation) table lists the per-channel P_{avg} with the maximum highlighted. The max-summary table leads, then one table per configuration (UMTS spans Frequency · P_{avg}).

Max summary
