

LED Indicator:

LED Indicator	Status
Indicator light ON	Charging mode is active
Indicator light OFF	Charging mode is inactive
Indicator light flashing	Metal objects detected, overheating, or other abnormalities

Specifications:

Model	CGB001-ST	Wireless Output	9W Max
Input	9V $\equiv$ 2A	Power Adapter Output	18W

Note: Maximum wireless output power can only be achieved when using the official fast-charging adapter.

⚠ Warning

- If the wireless charger detects metal objects (e.g., keys, coins, or cards with metal parts) or high temperature, the indicator light will flash.
- In this case, wireless charging will not stop automatically.
- Please remove the foreign object or let the charger cool down before continuing.
- After the issue is resolved, reconnect the power supply to resume normal charging.

⚠ Important Safety Instructions:

Please refer to the electrical and safety information on the bottom before installing or operating the product.

- Avoid dropping.
- Do not disassemble.
- Do not expose to liquids.
- The maximum ambient temperature during use of this product must not exceed 40°C.
- Open flame sources, such as candles, must not be placed on this product.
- Only use a dry cloth or brush to clean this product.

WARNING: Only use attachments/accessories specified or provided by the manufacturer.

If the product is damaged or malfunctions, contact our customer service team for assistance.

STOUCHI

Wireless Charging Dock

User Manual-S031A-ST

Quick Start Guide:

- 1 Plug in the adapter
- 2 Indicator light turns on

Flexible Angle Adjustment:

Power Switch Operation:

1. By default, the switch is ON and the indicator light is illuminated.
2. Press the touch switch once to turn OFF the switch, and the indicator light will go out.

Proper Usage:

For Kindle Paperwhite Signature Editions (2022 & 2024 Releases) and Kindle Colorsoft Signature Edition

NOTICE

- Your device can be used with an e-reader case. Make sure the case is not folded back when placing it onto the stand.
- Using a case more than 4 mm thick is not recommended as it may affect the wireless charging function.

For Wireless Charging of Smartphones

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
