a) Charge the battery

1. Connect the charger cable to a wall outlet
2. The red indicator light is on during charging. It takes circa 2 hours to fully charge the battery. When the battery is fully charged, the blue indicator is on. Disconnect the charger cable from the headset, then from the wall outlet.

Note: When the headset battery is low, the headset beeps and the red indicator light flashes.

b) Power ON/OFF

1. To power on, press the **ON/OFF** button for about 3 seconds until you hear "DU", then release your hands, and headset enters Bluetooth mode indicator light flashes in blue and red light alternately.
2. To power off, press the ON/OFF button for about 3 seconds, the red indicator light is off.

c) Pair and connect the headset

1. Ensure that your mobile device is switched on.
2. If the headset has not been previously paired with a device, switch on the headset, the headset enters pairing mode, indicator light flashes in blue and red light alternately. If the headset has been previously paired with a device, headset automatically connects with this device.
3. Within about 3 minutes, activate the Bluetooth function on your device, and set it to search for Bluetooth devices. For details, see the user guide of your device.
4. Select the headset from the list of searched devices, pairing code:APEX PRO. If necessary, enter the password 0000 to pair and connect the headset to your device.

d) Wear the headset

Place the headset on your head and make sure that the earpad with ON/OFF rest on your right side ear and the other side on your left ear. You can adjust the headband size to fit your head comfortably.

e) Adjust the volume

To adjust the headset volume, press + button to increase volume and press - button to reduce volume.

f) Phone Calls

- To answer or end a phone call, press the ON/OFF key.
- To reject a phone call, press and hold the ON/OFF button for about 3 seconds until the headset alerts.
- To redial the last number you called (if your mobile device supports this feature with headset), when no call is in progress, press the ON/FF button twice.
- To switch a call from the headset to a compatible mobile device, press the ON/OFF button, or switch off headset.
- To switch a call back to the headset, press the ON/OFF button, or switch on the headset.

g) Listen to music

To listen to music, connect the headset to a compatible music player.
1. If you receive or make a call while listening to music, the music is paused until you end the call. To play a song, select it in the music player or press </> to select songs. To pause or stop playing, press the ON/OFF button.

h) Line-in

You can use the 3.5mm audio cable to connect the headset with your mobile, computer or tablets if they come with 3.5mm audio jack port.

Note: During Line-in mode, you can not answer/make phone call by your mobile.

i) Warning

When you use the headset, your ability to hear the outside background sounds maybe affected. Do not use the headset where it can endanger your safety. Continuous exposure to high volume may damage your hearing. Listen to music at a moderate volume level.

j) Satefy Information

Do not try to dismantle the product by yourself, or push objects of any kind into the headset. Doing so may result in fires, electric shocks, complete breakdown of this device. Avoiding exposing the headset to rain, moisture, or other liquids.

k) Battery warning

Cation: the battery used in the headset may present a risk of fire or chemical burn if mistreated. Batteries may explode if damaged. Important: Please refer to the user manual for a description of charging status indicator lights.

l) Charging warning

When you disconnect the power cord or any enhancement, grasp and pull the plug, not the cord. Never use a charger that is damaged. Do not attempt to disassemble the charger as it may expose you to dangerous electric shock.

m) Trouble shooting

If you can not connect the headset to your compatible device, check to make sure the headset is charged, switched on and paired with the device, or if the headset is in Bluetooth mode. If all failed, please contact with your distributor.

4. FAQ

1. Why is there no power even when the headset is power on?
Answer: Ensure the battery is being charged up to 3 hours for first time use. The indicator light is on when the headset starts charging.
2. There is no sound when playback.
Answer: Check the connection between your headset with phone or computer. If the connection is not established, please reconnect. Make sure the headset is paired and connected with the target phone or computer.
3. How can I know the headset has been fully charged?
Answer: When the indicator light turns from red to blue when it is being charged, it means the headset has been fully charged.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
