### MODULAR APPROVAL LETTER

**FCC ID: 2BTHP-2-WF002-V01**

| <b>Modular Approval Requirement</b>                                                                                                                                                                                                                                                                                                                                                                                                                                         | <b>Yes/No</b> | <b>Comments</b>                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (i) The radio elements of the modular transmitter must have their own shielding. The physical crystal and tuning capacitors may be located external to the shielded radio elements.                                                                                                                                                                                                                                                                                         | No            | The modular transmitter has no shield.                                                                                                                                                                                  |
| (ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.                                                                                                                                                                                                                                           | Yes           | The modular transmitter has buffered modulation/data inputs ensure compliance with Part 15 under conditions of excessive data rates or over-modulation. All inputs are buffered through logic or microprocessor inputs. |
| (iii) The modular transmitter must have its own power supply regulation.                                                                                                                                                                                                                                                                                                                                                                                                    | NO            | The modular is supplied with stable 3.3V power from the carrier motherboard.                                                                                                                                            |
| (iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c). The antenna must either be permanently attached or employ a “unique” antenna coupler (at all connections between the module and the antenna, including the cable). The “professional installation” provision of § 15.203 is not applicable to modules but can apply to limited modular approvals under paragraph (b) of this section. | Yes           | Antenna permanently attached.                                                                                                                                                                                           |

|                                                                                                                                                                                                                                                                                                                                                           |     |                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (v) The modular transmitter must be tested in a stand-alone configuration                                                                                                                                                                                                                                                                                 | Yes | The module complies to Part 15 in a stand-alone configuration                                                                                                                                                                                                                                                                                                                 |
| (vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.                                                                                                                                                                                      | Yes | the modular transmitter is labelled with its own FCC ID number. Because the modular transmitter may be installed inside another device, rendering its own label invisible, the integration guide of the modular transmitter informs that the host device must visibly display the necessary text (Contains FCC ID: 2BTHP-2-WF002-V01) on the outside of the finished product. |
| (vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization. | Yes | The module is compliant with all applicable FCC rules. Instructions for maintaining compliance are given in the integration guide.                                                                                                                                                                                                                                            |
| (viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.                                                                                                                                                                                                                                       | Yes | The module is compliant with all applicable RF exposure requirements. Please see RF Exposure Report.                                                                                                                                                                                                                                                                          |

Sincerely,
