

Notice to user

FCC Caution

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. Verification of harmful interference by this equipment to radio or television reception can be determined by turning it off and then on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a different circuit to that of the receiver's outlet.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Note: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Compliance and Control Guidelines and Operating Instructions

To control your exposure and ensure compliance with the occupational/controlled environmental exposure limits, always adhere to the following procedures.

Guidelines:

- Do not remove the RF Exposure Label from the device.
- User awareness instructions should accompany device when transferred to other users.
- Do not use this device if the operational requirements described herein are not met.

Operating Instructions:

- This radio is designed for and classified as "General population/uncontrolled Use"
- DO NOT operate the radio without a proper antenna attached, as this may damage the radio and may also cause you to exceed RF exposure limits. A proper antenna is the antenna supplied with this radio by the manufacturer or an antenna specifically authorized by the manufacturer for use with this radio.
- DO NOT transmit for more than 50% of total radio use time, more than 50% of the time can cause RF exposure compliance requirements to be exceeded.
- The safety distance for head and body exposure assessment is 5mm.

WALKIE-TALKIES

STEAM EDUCATIONAL CONSTRUCTION TOYS

WARNING:

- Contains small parts, not suitable for children under 3 years old.
- Adult supervision required.

NOTES:

- Don't immerse in water.
- Keep away from open flame.

Assembly instructions:

Remove the parts from the board sequentially according to the instructions. Be careful not to damage the parts. If it is difficult to remove, please use a knife to carefully cut the connection points, adult assistance required.

Requires 6 "AAA" batteries (non-included).

What's included in the kits

4 wood sheets with 30 pre-cut pieces

Walkie-talkies Electronic Motherboard with Microphone x 2

Speakers x 2

Battery Compartment x 2

Short Screw-6mm x 10

Medium Screw-8mm x 2

Long Screw-10mm x 22

Flanged Screw-5mm x 18

Push-to-talk Button x 2

Antenna x 2

Screwdriver

* Screwdriver is not a toy. Retain the screwdriver for future use and store it where the child cannot access it.

Install the Batteries

**Congratulations,
return to step 1
to assemble
your second
walkie talkies!**

Requires 6 "AAA" (1.5V) batteries (not-included).

To change battery, simply remove the screw to access the battery compartment, remove the battery and insert the new one following the polarity guide.

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable batteries.
- Non-rechargeable batteries are not to be charged.
- Batteries are to be inserted with the correct polarity (+ and -).
- Exhausted batteries are to be removed from the toy.
- The supply terminals are not to be short-circuited.
- Rechargeable batteries are to be removed from the toy before being charged.
- Rechargeable batteries are only to be charged under adult supervision.

How to use the walkie-talkies:

1. Press the push-to-talk button, speak, then release the button to send the message.
2. Green light is lit to indicate that the information is being received.
3. 4 to 7 walkie talkies can communicate at once.

IF THE WALKIE TALKIES DOESN'T WORK

Please check the following:

- Make sure the switch is turned on.
 - Use fresh batteries and check that they are installed properly.
 - Double check that the cables from the battery compartment are connected securely to the motherboard.
- Check whether the push-to-talk button is connected correctly.
