

INSTRUCTIONS

Product parameters

Product model: F115

Product color: Black

Product Material: ABS+PC

Input voltage: 5V-9V

Speaker: 5W

Bluetooth version: 5.4

Battery model: 18650

Output power: 5W

Playback mode: Mobile connection

playback/USB+TF card playback

USAGE METHOD:

1. Open the packaging and fully charge before first use.
2. Slide the power switch to the right to turn on the device, and the audio system will display a voice prompt for Bluetooth pairing (Bluetooth Mode). At the same time, the audio indicator light will flash blue (if the charging cable is plugged in at this time, it will flash red and blue). Search for the Bluetooth device of the speaker using the Bluetooth function on your phone and connect it (device model F115) to this blue speaker. The sound system displays a voice prompt (ding dong sound) indicating a successful Bluetooth connection. Open the mobile music player and the speaker to play mobile music through Bluetooth.
3. Play USB flash drive/TF card: You can directly insert the USB flash drive into the USB interface (or insert the TF card speaker to automatically play TF card music (with the printed side of the TF card facing downwards), and the speaker will automatically switch to playing songs from the USB flash drive/TF card.
4. During the music playback process (regardless of the playback mode), press [◀] to control the previous song, press [▶] to control the next song [⏸] to control play/pause, MODE key mode switching, and rotate the button to adjust the volume during the music playback process

WIRELESS CHARGING METHOD:

1. Ensure that the phone supports wireless charging function
2. Insert the 5V3A or fast charging adapter into the charging port of the phone holder.
3. Align the phone with the charging panel on the phone holder to ensure tight contact between them. The indicator light will turn into a stable blue light. Indicates that the phone is charging (if there is a metal object on the panel, the wireless charging status is incorrect and the indicator light will flash)

FCC warning statements:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
