

**DUO**

ANC Earbuds for Everyday

**User Manual**

## Safety Precautions

1. **Do not** attempt to disassemble or modify the unit.
2. **Do not** expose the unit to liquids, moisture, or humidity.
3. If any liquid enters the unit, **disconnect it from your device immediately**, and move it to a safe, dry location.
4. **Do not** remove the earbuds from the charging case if your hands are wet, to avoid the risk of electric shock.
5. **Do not** expose the unit to extremely high temperatures.
6. **Do not** place the unit near strong electromagnetic sources, as this may cause it to malfunction.
7. Use the **minimum amount** of volume necessary. High volume for long durations will lead to permanent hearing damage.

## Box Contents

Charging Case

Earbuds

USB-C Cable

Silicone Ear Tips  
(2 Small, 2 Large)

## How To Use

### 1. Power On

Open Duo's charging case - the earbuds will automatically power on.

### 2. Power Off

Place the Duo's back into their charging case - they will automatically power off.

If the Duo's are powered on but not connected to any device, they will automatically power off after 5 minutes.

### 3. Bluetooth Pairing

The Duo will automatically enter pairing mode once the case is open.

On your source device, open the Bluetooth settings, search for "AIRO Duo", and select it to connect.

## Touch Controls

## LED Indicator Guide

### Charging Case

| Status                | LED Indicator                      |
|-----------------------|------------------------------------|
| Case Battery Life     | Central white LED shows percentage |
| Earbuds Charging      | Green LEDs cycle 1-4 repeatedly    |
| Earbuds Fully Charged | Green LEDs off                     |
| Case Fully Charged    | Central white LED shows 100%       |

## Technical Specifications

### AIRO Duo

|                       |                                         |
|-----------------------|-----------------------------------------|
| Bluetooth Version     | 5.4                                     |
| Audio Modes           | ANC / Transparency / Normal             |
| Microphones           | Dual MEMS system with ANC/ENC filtering |
| Drivers               | 13mm copper-ring composite dynamic      |
| Water Resistance      | IPX4 – sweat and splash resistant       |
| Signal-to-Noise Ratio | ≥95dBA                                  |
| Battery Life          | 20 hours' total                         |
| Charging Time         | 1.5 hours (Duo's and Case)              |
| Charging Requirements | 5V/1A via USB-C                         |

## FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

### RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
