VOULAO Wireless Earbud VL03 Product Specifications Model: VL03 Bluetooth Range: >10 m Version: 4.0 Speaker Diameter: 13 mm Impedance: 32Ω Earphone power Input: 5V = 35mA Battery capacity: 35mAh Battery life: 4 hrs Charging time: 1.5 hrs Charging case power Input: 5V = 300 mA Output: 5V = 70 mA Battery capacity: 300mAh Charging time: 1.5 hrs Earphone recharges: 3 charges (when case is fully charged) Quick Start Guide VOULAO VL03	What's in the box Important safety instructions Carefully read all the safety instructions in this document before using the product. General safety instructions - Use the product with care and store it in a clean environment that is free from extreme temperature, pressure, and humidity. Make sure that the product is stored in a location where it cannot be bent or squashed. - Repairs and replacements should only be performed by authorized after sales service staff. Do not attempt to disassemble or replace any part of the product pursuant to prevent injuries or damage to the device. Any unauthorized modification to the product will void the warranty. - Only use the product in environments where Bluetooth transmission is permitted. Personal safety instructions - Do not use the product if you are obviously deficient or exhibits abnormalities such as bulging or excessive heating. - Do not use the product when performing high-risk tasks that require your full attention. - For your hearing protection, do not listen at high volume for long periods. - Keep the product and its packaging out of reach of children and pets to prevent accidents such as swallowing and choking.	Components Battery safety instructions The product has a built-in rechargeable battery. Read the following instructions to ensure safe use and to avoid safety hazards. - Keep the product away from prolonged exposure to heat sources such as open fires or direct sunlight. - Only store the product in environments with ambient temperature of 0°C to 30°C (32°F to 86°F). - Do not use or store the product in dust-proof, smoke-proof, high-temperature, high-pressure, or highly humid environments. - Keep the product dry and away from liquids or moisture. - Only use an FCC or CCC-certified charger with an output voltage of 5V < 2.0 A < 2C. - Do not use the product while charging. - Do not leave the product charging for longer than eight hours. - Dispose of the product responsibly according to your local waste management guidelines.	How to put on the earphones FCC ID: 2BTLR-VL03 The FCC complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.	Power on and off Power on If you're using the earphones for the first time, remove both from the charging case. The LED on the earbuds will blink Purple and Green. Alternatively, indicating that they are pairing mode, they will automatically power on and await connection. Power off Placing the earphones in the charging case and closing the case will automatically turn them off. Unconnected case will manually turn off each earphone, press and hold the touchpad for five seconds. Note: If earphones are not paired with a Bluetooth device within three minutes after powering on, they will automatically power off. They will also power off after three minutes if the paired Bluetooth device moves out of the effective connection range and has not reconnected. How to reset the earphones If the earphones fail to pair or reconnect to each other, reset them by tapping both earphones five times simultaneously. Note: Repeating the earphones will clear the Bluetooth pairing history.	Connect to Bluetooth device On your device, turn on Bluetooth and choose to connect to "VOULAO VL03".																																																																
Basic operations Key functions - Play/Pause: Lights up green after earbud removal, blinks red for double-tapping the right earbud. - Volume Down: Double-tap the left earbud. - Previous Track: Lights up blue after earbud removal. - Next Track: Lights up blue after earbud removal. - Repeat Call: Press on hold either earbud for 3 seconds. - Activate Assistant: Press and hold left earbud for 3 seconds. - Reset: Is steadily more, press and hold for 2 seconds to activate the voice function. - Switch between Game Mode and Music Mode: Press and hold the right earbud for 3 seconds to switch between Game Mode and Music Mode. - Switch between Music Mode and Game Mode: Press and hold the left earbud for 3 seconds to switch between Music Mode and Game Mode. - Game Mode: Return to Music Mode. - Double Mode: Quick tap either earbud twice in a row. Both the default Music Mode and the Game Mode will switch to Double Mode. - Game Mode: Return to Music Mode when placed back into the charging case.
