

User Manual

TWS Bluetooth EQ Light Earphone Manual

1. Product Introduction

This product is a TWS wireless Bluetooth earbud with dynamic EQ ambient light on the surface shell. It integrates Bluetooth calling, stereo music playback, touch control and light effects. Featuring lightweight wearing and stable connection, it is suitable for daily music listening, audio-visual entertainment and voice calls.

2. Product Parameters

1. Bluetooth Version: Bluetooth 5.4
2. Operating Frequency: 2.402–2.480GHz
3. Single Earbud Battery Capacity: 50mAh
4. Charging Case Capacity: 500mAh

3. Main Functions

1. Bluetooth Connection

The earbuds automatically enter pairing mode after power on. You can connect by searching the Bluetooth name on your mobile phone. It supports automatic interconnection and seamless switching between left and right earbuds.

2. Touch Control Function

Lightly touch the surface of the earbuds to realize common operations such as song switching, play/pause, answering and hanging up calls with sensitive and simple operation.

3. EQ Ambient Light

The earbud surface is equipped with dynamic light effects. The lights rhythmically change with audio music and synchronize with EQ sound effects to create a stronger atmosphere. The lights can automatically turn on and off according to different usage scenarios to reduce power consumption.

4. High-Definition Call

Built-in microphone can pick up ambient human voice and transmit call voice clearly, ensuring stable daily call performance.

4. Usage Instructions

1. Power On: The earbuds will automatically power on and enter pairing state when taken out of the charging case.
2. Connection: Turn on the Bluetooth of your mobile phone, search for the device name and click to pair.
3. Charging: Connect the charging case to a 5V 1A power supply, then place the earbuds into the case for charging.
4. Power Off: Put the earbuds back into the charging case to automatically power off and sleep to save power.

5. Precautions

1. Do not disassemble or squeeze the earbuds privately to avoid damaging the internal circuit.
2. Use certified 5V 1A adapters for charging to prevent equipment damage caused by high voltage.
3. Keep the product away from high temperature, humid and watery environments to prolong its service life.

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
