Magnetic wireless power bank

Model： F16

Instructions

SureTech

Usage of magnetic suction

(1) The built-in magnet of iPhone 12 and above series can be used directly, and the magnetic protective case can be used directly.

✓

Please use a magnetic protective shell

✗

IPhone 12 and above series phones will have poor magnetic absorption effect when equipped with a protective case without magnetic absorption

(2) All mobile phones use a non magnetic protective case and must be attached with a magnetic ring to hold it.Note: Only phones that support wireless charging can be used. The magnetic suction ring must be attached to the center of the phone, otherwise it will overheat and cut off the charge. If not charged, it needs to be removed and repositioned.

The steps for the magnetic coil are as follows：

① Tear off protective film
② Tearing of Double-sided tape
③ Stick the center position of the phone protection case

Non-Iphone 12 and above series use method

Huawei, Xiaomi, vivo, OPPO, Samsung, iPhone8-11 and other mobile phones that support wireless charging can be magnetic wireless charging by attaching magnetic rings

Note: If the mobile phone protection case does not have a magnetic function, the magnetic ring should be pasted on the outside of the protective case

LED Display

Display screen is 100% power display, ⊙ for fast charge indicator.

Fast charge display: ⊙ Indicator light always on

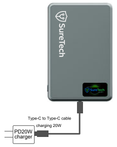
Charging:Battery indicator number flashing

Fully charged:The power display is 100% full power

Output Input function view

Magnetic wireless charging supports a maximum of 15W output.
The final receiving power of each mobile phone varies

Wireless can support all phones, watches, headphones, tablets, and other charging devices that support wireless charging. Type-C output supports charging for all phones, watches, headphones, tablets, and other devices.



Usage method

1. Click the button to turn on, double-click the button to turn off. The first use requires clicking the button to activate the self start function. After activation, simply attach the device to the back of the phone to automatically wake up and charge.

2. 3 in1 function display

As shown, This device supports wireless charging for iPhone, Apple Watch and Airpods

3.How to charge two phones at the same time

As shown,Attach the device to the back of the phone for wireless charging,Then use the charging cable to charge the other phone

4.Simultaneous charging and discharging

Use a charger to charge your device And use the device to wirelessly charge the phone.

Product Parameter

Li-Battery capacity:5000mAh(3.85V / 19.25Wh) Rated capacity:3000mAh(5V⎓2A)
Li-Battery capacity:10000mAh(3.85V / 38.5Wh) Rated capacity:6000mAh(5V⎓2A)

Conversion：≥60%(5V⎓2A)　　Total Output：20W(Max)

Type-C output：5V⎓3A / 9V⎓2.2A / 12V⎓1.67A

Wireless charging output：2.5W / 5W / 7.5W / 10W / 15W

Type-C input：5V⎓3A / 9V⎓2.2A / 12V⎓1.67A

Product size：(5000mAh) ≈103*66*8mm
Product size：(10000mAh)≈103*66*13.5mm

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if notinstalled and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. Ifthis equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correctthe interference by one or more ofthefollowing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 ofthe FCC Rules. Operation is subjectto the following two conditions:
(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits setforth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
