PowerOFF

Power ON

III 、 Charging indicator

1. Take the local charging cable, connect the charger, and the power indicator light "red light" will turn on. When fully charged, the charging indicator light will automatically turn off.

2. Charger adaptation specifications: 5V/1A.

IV 、 Function description

1. Turn the power switch to the "ON" state, the machine will automatically turn on and display our own camera. When the other party's walkie talkie is turned on, both parties will automatically connect and display each other's image.
2. Press and hold the "📞" button to initiate voice communication. The local voice is transmitted through a one-way channel, and only when the speaker releases the intercom button can the other party press and hold the intercom button to send the voice message.

3. Image display conversion key "MODE": This device has four screen display modes. Long press the "MODE" button for 2 seconds, then release it to switch the display screen.

PIP ModeA

PIP ModeB

Only display
our own image mode

Only display
the opponent's image mode

4. Big head sticker function: Short press the "OK" key to display the corresponding headscarf to the other side.

5. Voice changing function: Short press the "MODE" button to switch to various different sounds. After turning off, the voice changing mode returns to the original sound mode.

6. Video and voice switching function: After short pressing "📞", The other party will not be able to see you, and the "📞" will be displayed on the screen. At this point, Only voice can be transmitted to the other, meanwhile the distance of voice transmission will be enhanced appropriately.

7. Volume adjustment:

Short press the "+" button to increase the volume. Short press the "-" key to decrease the volume.

8. If not in use for a long time, please turn the toggle switch to the "OFF" position. To restart the product, simply turn the power to "OFF" and then to "On" to start it normally.

9. Product pairing and connection methods:

This product adopts WIFI 2.4G transmission and connection mode. Each package contains two walkie talkies that have been paired and cannot be connected to other machines for use. If multiple sets of products are purchased, they can only be connected one-to-one in sets and cannot be used simultaneously.

10. Precautions:
 - a, This product is suitable for outdoor use.
 - b, This machine is not waterproof.
 - c, The indoor distance of the product shall be based on the image without any lag.

V 、 Product specifications

Screen	2.0 Inch IPS
CMOS pixel	30W
Battery capacity	3.7V 650mAh
Language	English
USB Port	Type-C
Operate TEMP	-20°C~60°C
Storage TEMP	-30°C~70°C
Power	5V/1.0A
Product size	131mm*53mm*22mm

Made in China

FCC Statement

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: This device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the This device kept 5mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 5mm separation distance between the user's body and the back of the This device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
