Electronic iron-bead board

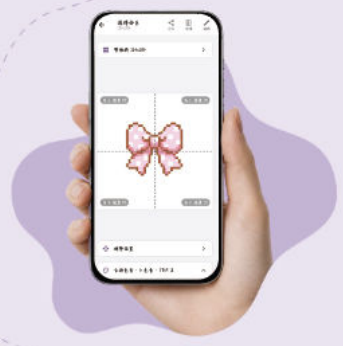
Usage Guide

01

Power on and connect via app Bluetooth.
(Ensure smartphone Bluetooth is enabled.)

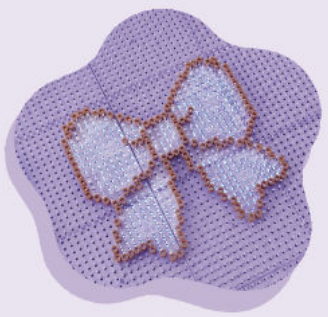
02

「douhaopin」 Open the app and load the pattern.



03

The system automatically recognizes and generates the pattern.



04

Select color number in app; board lights up automatically. Arrange beads by the lights.

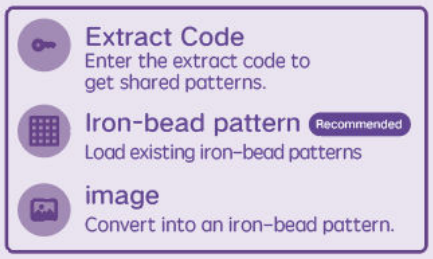
05

Remove the cooled bead board and iron it directly.

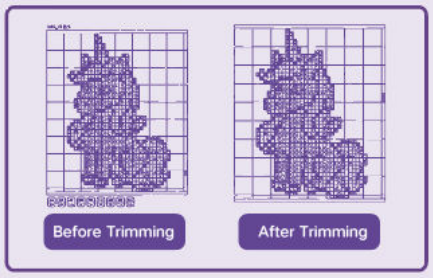
App Operation Guide

How to load iron-bead patterns?

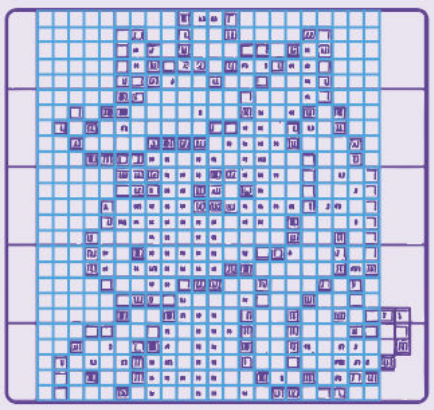
1. Tap "+" in-app to create new, then select "iron-bead pattern".



2、Trimming
Drag the selection frame to enclose the main part of the pattern.



3、Alignment
Select the pattern size and fit it to the grid.



4、Loading Complete
Tap a color number, and it will be reflected on the iron-bead board in real-time.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
